MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2024

INTRODUCTION

The following Management's Discussion and Analysis ("MD&A") of the consolidated financial condition and financial performance of Crombie Real Estate Investment Trust ("Crombie") should be read in conjunction with Crombie's interim condensed consolidated financial statements ("financial statements") as at and for the three and nine months ended September 30, 2024 and 2023. This MD&A should also be read in conjunction with Crombie's audited consolidated financial statements as at and for the years ended December 31, 2023 and 2022.

Except for per Unit, gross leasable area ("GLA") and square footage ("sq. ft.") amounts, and where otherwise noted, all amounts in this MD&A are reported in thousands of Canadian dollars.

The information contained in the MD&A, including forward-looking statements, is based on information available to management as at November 6, 2024, except as otherwise noted.

Additional information relating to Crombie, including its latest Annual Information Form, can be found on the SEDAR+ website for Canadian regulatory filings at www.sedarplus.ca.

For definitions of certain acronyms and specialized terms used in this document, refer to the "Glossary of Terms" on page 7.

FOOTNOTES

(*) NON-GAAP FINANCIAL MEASURES

Some of the financial measures provided in this document are non-GAAP financial measures that have no standardized meaning under International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards") and therefore may not be comparable to similar measures presented by other companies. See "Non-GAAP Financial Measures", starting on page 69, for more information on Crombie's non-GAAP financial measures and reconciliations thereof.

FORWARD-LOOKING STATEMENTS

Some of the information provided in this document is forward-looking and therefore could change over time to reflect changes in the environment in which Crombie operates and competes. See "Forward-looking Information", starting on page 74, for more information.

1. KEY HIGHLIGHTS

Crombie uses financial and operational metrics to measure its performance. These key metrics are highlighted below:

(*) See “Non-GAAP Financial Measures”, starting on page 69, for more information on Crombie’s non-GAAP financial measures and reconciliations thereof.

FINANCIAL METRICS (in thousands except GLA and per Unit amounts)

Property revenue⁽¹⁾

Q3 2024
\$114,460
Q3 2023 \$109,389 +4.6%

YTD 2024
\$349,430
YTD 2023 \$334,703 +4.4%

The increase in property revenue in the quarter and year to date was due primarily to higher revenue from new developments, renewals, new leasing activity, and supplemental rent from modernization investments.

The year-to-date increase was partially offset by higher tenant incentive amortization, primarily from modernizations.

Operating income attributable to Unitholders

Q3 2024
\$26,570
Q3 2023 \$27,796 -4.4%

YTD 2024
\$82,122
YTD 2023 \$72,526 +13.2%

The decrease in operating income in the third quarter was mainly due to higher Unit-based compensation costs resulting from an increase in Crombie's Unit price, higher interest expense, and reduced income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in 2023. This was offset in part by growth in property revenue from new developments, renewals, new leasing activity, and higher supplemental rent from modernization investments.

The year-to-date increase was driven primarily by reduced general and administrative expenses due to lower employee transition costs compared to the same period in 2023 and organizational changes in 2024. Further contributing to the increase was growth in property revenue due to the factors discussed above, increased revenue from management and development services, and higher gain on disposal of investment properties. The increase was partially offset year to date by increased interest expense and lower income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in 2023. Further offsetting the increase in operating income was impairment of an investment property in the second quarter of 2024, an increase in depreciation and amortization, and higher tenant incentive amortization primarily from modernizations.

Net property income^(*)

Q3 2024
\$75,006
Q3 2023 \$71,453 +5.0%

YTD 2024
\$223,535
YTD 2023 \$211,543 +5.7%

Net property income was positively impacted during the quarter and year to date by property revenue increases from new developments, renewals, new leasing activity, and supplemental rent from modernization investments.

The year-to-date increase was partially offset by higher tenant incentive amortization, primarily from modernizations.

(1) Property revenue for the three and nine months ended September 30, 2023 has been increased by \$4,898 and \$14,694, respectively, as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

FINANCIAL METRICS (CONTINUED)

Same-asset property cash NOI^(*)

Q3 2024	YTD 2024
\$78,707	\$233,542
Q3 2023 \$76,721 +2.6%	YTD 2023 \$226,555 +3.1%

The increase in same-asset property cash NOI for the quarter was primarily driven by increased property revenue from renewals, contractual rent step-ups, and new leasing.

The year-to-date increase was due to the factors discussed above and by higher supplemental revenue from modernization investments.

FFO^(*) per Unit

Q3 2024	YTD 2024
\$0.31	\$0.93
Q3 2023 \$0.31 —%	YTD 2023 \$0.87 +6.9%

Without impacting FFO per Unit, total FFO decreased in the quarter, driven primarily by higher Unit-based compensation costs resulting from an increase in Crombie's Unit price, higher interest expense, and reduced income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in the third quarter of 2023. This was offset in part by higher property revenue from new developments, renewals, new leasing activity, and supplemental rent from modernization investments.

The year-to-date increase in FFO per Unit was driven by reduced general and administrative expenses due to lower employee transition costs compared to the same period in 2023 and organizational changes in 2024. Further contributing to the increase was growth in property revenue from new developments, renewals, new leasing activity, supplemental rent from modernization investments, and increased revenue from management and development services. The increase was partially offset by increased interest expense and lower income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in 2023.

Excluding employee transition costs of \$784 in the second quarter of 2024, FFO^(*) per Unit was \$0.93 year to date (\$0.91 year to date, excluding employee transition costs of \$7,172 in the second quarter of 2023), an increase of 2.2% over 2023.

FFO^(*) payout ratio

Q3 2024	YTD 2024
72.5%	72.0%
Q3 2023 70.9% +1.6%	YTD 2023 77.1% -5.1%

The increase in FFO payout ratio in the third quarter compared to the previous year resulted primarily from higher distributions due to Units issued under Crombie's distribution reinvestment plan ("DRIP").

Items affecting total FFO, as discussed above, drove the improvement in FFO payout ratio year to date compared to the same period in 2023, offset in part by higher distributions due to Units issued under the DRIP.

FINANCIAL METRICS (CONTINUED)

AFFO^(*) per Unit

Q3 2024

\$0.27

Q3 2023 \$0.28 -3.6%

YTD 2024

\$0.80

YTD 2023 \$0.75 +6.7%

Total AFFO decreased in the quarter primarily due to higher Unit-based compensation costs resulting from an increase in Crombie's Unit price, higher interest expense, and reduced income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in the third quarter of 2023. This was partially offset by higher property revenue from new developments, renewals, contractual rent step-ups, new leasing activity, and supplemental rent from modernization investments.

On a year-to-date basis, the growth in total AFFO was primarily driven by reduced general and administrative expenses due to lower employee transition costs compared to the same period in 2023 and organizational changes in 2024. Growth in property revenue due to the factors discussed above and increased revenue from management and development services further contributed to the year-to-date increase in AFFO. This was partially offset by higher interest expense and reduced income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in 2023.

Excluding employee transition costs of \$784 in the second quarter of 2024, AFFO^(*) per Unit was \$0.81 year to date (\$0.79 year to date, excluding employee transition costs of \$7,172 in the second quarter of 2023), an increase of 2.5% over 2023.

AFFO^(*) payout ratio

Q3 2024

83.6%

Q3 2023 80.2% +3.4%

YTD 2024

83.4%

YTD 2023 88.7% -5.3%

The increase in AFFO payout ratio in the third quarter compared to the previous year resulted primarily from higher distributions due to Units issued under the DRIP.

Items affecting total AFFO, as discussed above, drove the improvement in AFFO payout ratio year to date compared to the same period in 2023, offset in part by higher distributions due to Units issued under the DRIP.

OPERATIONAL METRICS

Renewals (GLA sq. ft.)

Q3 2024	YTD 2024
359,000	901,000
Q3 2023 238,000 +50.8%	YTD 2023 1,023,000 -11.9%

Renewal activity in the quarter consisted of 192,000 square feet in Rest of Canada, 118,000 square feet in VECTOM, and 49,000 square feet in Major Markets.

Year-to-date renewal activity consisted of 517,000 square feet in Rest of Canada, 239,000 square feet in VECTOM, and 145,000 square feet in Major Markets.

Renewal spreads

Q3 2024	YTD 2024
9.7%	9.8%
Q3 2023 6.5% +3.2%	YTD 2023 5.3% +4.5%

The primary driver of renewal growth in the quarter and year to date was renewals at retail properties with an increase of 9.8% and 10.3% over expiring rental rates, respectively.

Committed occupancy

Q3 2024
96.1%
Q3 2023 96.4% -0.3%

At the end of the third quarter of 2024, 42,000 square feet of space was committed. VECTOM and Major Markets represent 22,000 square feet of committed space.

The decrease from Q3 2023 is primarily due to natural lease expiries, early terminations, and tenant downsizing, partially offset by new leases.

Economic occupancy

Q3 2024
95.9%
Q3 2023 96.0% -0.1%

Crombie's economic occupancy was primarily influenced by new leases of 187,000 square feet outpacing lease expiries by 78,000 square feet. Notable new leases over the last 12 months include a retail-related industrial asset and two grocery stores.

The decrease from Q3 2023 is primarily due to natural lease expiries, early terminations, and tenant downsizing, partially offset by new leases.

FINANCIAL CONDITION METRICS

Debt to trailing 12 months adjusted EBITDA^(*) (D/EBITDA)

Q3 2024

7.72x

Q3 2023 8.13x -0.41x

The improvement in D/EBITDA ratio was due to increased trailing adjusted EBITDA offset in part by higher outstanding debt compared to the third quarter of 2023, primarily from the issuance of senior unsecured notes in the first quarter of 2024.

Interest coverage ratio^(*)

Q3 2024

3.31x

Q3 2023 3.41x -0.10x

YTD 2024

3.33x

YTD 2023 3.20x +0.13x

The reduction in interest coverage ratio for the quarter was primarily due to higher finance costs from operations as a result of higher interest rates, offset in part by improved adjusted EBITDA.

On a year-to-date basis, the increase in interest coverage ratio was driven by improved adjusted EBITDA, due primarily to higher property revenue from new developments, renewals, new leasing, supplemental rent from modernization investments, and increased revenue from management fees and development services. Reduced general and administrative expenses resulting from lower employee transition costs compared to the same period in 2023 and organizational changes in 2024 further contributed to the increase in adjusted EBITDA. This was offset in part by increased finance costs from operations as a result of higher interest rates and lower income from equity-accounted investments resulting from the sale of land at Crombie's Opal Ridge joint venture in 2023.

Debt to gross fair value^(*) (D/GFV)

Q3 2024

42.9%

Q3 2023 42.4% +0.5%

Q4 2023

43.0%

Q4 2022 41.8% +1.2%

The increase in D/GFV was due to the issuance of senior unsecured notes in the first quarter of 2024, part of which was used to pay down floating rate debt. This was partially offset by a reduction in outstanding mortgages and an increase in gross fair value of investment properties compared to the third quarter of 2023.

Available liquidity - unutilized credit facilities

Q3 2024

\$676,649

Q3 2023 \$564,903 +19.8%

The increase in available liquidity resulted from lower balances of floating rate debt outstanding compared to the third quarter of 2023.

2. GLOSSARY OF TERMS

Adjusted debt^(*)	Represents debt, including Crombie's share of debt held in equity-accounted joint ventures, excluding transaction costs, which Crombie believes is a more relevant presentation of indebtedness. Adjusted debt is a non-GAAP measure that is used in the calculation of Crombie's debt to gross fair value and debt to trailing 12 months adjusted EBITDA.
Adjusted EBITDA^(*)	Represents earnings before interest, taxes, depreciation, and amortization, excluding certain items such as amortization of tenant incentives, impairment of investment properties, gain (loss) on disposal of investment properties, and gain on distribution from equity-accounted investments. It includes Crombie's share of revenue, operating expenses, and general and administrative expenses from equity-accounted joint ventures. Adjusted EBITDA is a non-GAAP measure that is used as an input in several of Crombie's debt metrics.
Adjusted interest expense^(*)	Represents finance costs from operations, including Crombie's share of interest from equity-accounted joint ventures, excluding amortization of deferred financing costs. Adjusted interest expense is a non-GAAP measure that is used in the calculation of Crombie's interest coverage and debt service coverage ratios.
AFFO^(*)	Adjusted funds from operations. Crombie follows the recommendations of REALPAC's January 2022 guidance in determining AFFO.
AMR	Annual minimum rent. This represents annualized fixed minimum rent payable by the tenant pursuant to the terms of the lease.
CFC	Customer fulfillment centre.
CMA	Census metropolitan area.
Committed occupancy	Represents current economic occupancy plus future occupancy of currently vacant space for which lease contracts are currently in place (excludes space held in equity-accounted joint ventures).
D/GFV^(*)	Debt to gross fair value.
Economic occupancy	Represents space currently occupied (excludes space held in equity-accounted joint ventures).
ESG	Environmental, social, and governance.
Fair value	The amount at which an asset or liability could be exchanged between two knowledgeable, willing, and unconnected parties in an arm's length transaction.
FFO^(*)	Funds from operations. Crombie follows the recommendations of REALPAC's January 2022 guidance in determining FFO.
GLA	Gross leasable area (excludes space held in equity-accounted joint ventures unless noted as proportionately consolidated).
IFRS Accounting Standards	International Financial Reporting Standards as issued by the International Accounting Standards Board.
Joint operations	Properties in which Crombie owns partial interests. These co-owned properties are subject to proportionate consolidation, the results of which are reflected in Crombie's operating and financial results, based on the proportionate interest in such joint operations.
Joint ventures	Entities over which Crombie shares joint control with other parties and where the joint venture parties have rights to the net assets of the joint venture. Crombie accounts for investments in joint ventures using the equity method.
Lease termination income	Revenue derived from the early termination of a lease. Lease termination occurs when a tenant desires to end occupancy prior to the lease end date.
Major Markets	A Crombie-specific definition that includes Abbotsford-Mission, Barrie, Chilliwack, Halifax, Hamilton, Kitchener-Cambridge-Waterloo, Oshawa, Quebec City, Regina, Saskatoon, Victoria, and Winnipeg, as defined by Statistics Canada 2021 boundaries for census metropolitan areas and census agglomeration.
Modernization	A capital investment to modernize/renovate Crombie-owned grocery store properties in exchange for a defined return and potential extended lease term.
NAV^(*)	Net asset value.
Net property income^(*)	Property revenue less property operating expenses. Net property income excludes revenue from management and development services and certain expenses such as interest expense and indirect operating expenses.
Property cash NOI^(*)	Property net operating income on a cash basis, excluding non-cash straight-line rent recognition and non-cash tenant incentive amortization.
Proportionate ownership	Represents Crombie's proportionate interest in the financial position and results of operations of its entire portfolio, taking into account the difference in accounting for joint ventures using proportionate consolidation versus equity accounting as required under IFRS Accounting Standards.
REALPAC	Real Property Association of Canada.
Rest of Canada (RoC)	A Crombie-specific definition that includes all remaining geographies outside of VECTOM and Major Markets.
Retail	Includes Crombie's substantial retail portfolio, including certain additional properties that comprise both retail and office space. These properties have been consistently included in Crombie's retail category.
Retail-related industrial	Retail-related industrial includes retail distribution centres, customer fulfillment centres, and spokes.
Revenue from management and development services	Represents revenue from co-owners, related parties, and third parties for development, construction, and property management services.

Same-asset properties^(*)	Properties owned and operated throughout the current and comparative reporting periods, excluding any property that was designated for redevelopment or was subject to disposition of a portion of its GLA during either the current or comparative period.
Spokes	Spokes are cross-dock distribution facilities developed to support customer fulfillment centres, the hubs of Empire Company Limited's ("Empire") hub-and-spoke network, by expediting the movement of merchandise to customers with minimal storage time.
Sq. ft.	Square footage.
Unencumbered assets	Represents assets that have not been pledged as security or collateral under a secured credit agreement or mortgage.
VECTOM	Vancouver, Edmonton, Calgary, Toronto, Ottawa-Gatineau, and Montreal, as defined by Statistics Canada 2021 boundaries for census metropolitan areas and census agglomeration.
WATM	Weighted average term to maturity.
Zoning application submitted	A formal municipal rezoning application that has been submitted for the purpose of achieving a new land use (i.e. residential, mixed-use) and generally to obtain higher levels of density and building height.

(*) See "Non-GAAP Financial Measures", starting on page 69, for more information on Crombie's non-GAAP financial measures and reconciliations thereof.

3. PORTFOLIO REVIEW

As at September 30, 2024, Crombie’s property portfolio consisted of full ownership interests in 235 investment properties, and partial ownership interests in 61 investment properties held in joint operations. In addition to investment properties, Crombie also has full ownership interests in four properties under development (“PUD”), as well as partial ownership in one asset in PUD held in a joint operation and four properties held in joint ventures. Together, Crombie’s share of these 305 properties contains approximately 19.3 million square feet of GLA in all 10 provinces.

Total Portfolio Review Inclusive of Joint Ventures

Crombie holds partial ownership interests in eight joint ventures, four of which currently hold property. These joint ventures are all subject to equity accounting. The results of these equity-accounted investments are not included in certain financial metrics, such as net property income(*), property cash NOI(*), or same-asset property cash NOI(*), unless it is specifically indicated that such metrics are presented on a proportionate consolidation basis. Below are select operating metrics for the full portfolio presented on a proportionate consolidation basis.

On October 15, 2024, Crombie acquired the remaining 50% interest in the Davie LP joint venture for total consideration of \$133,000, excluding closing and transaction costs.

Market Class

Crombie’s portfolio of GLA and fair value, inclusive of joint ventures at Crombie’s share, consisted of the following as at September 30, 2024:

The table below provides details of the average capitalization rate (weighted by stabilized trailing NOI including joint ventures) by market class used by Crombie in assessing fair value. For an explanation of the determination of capitalization rates, see the “Other Disclosures” section of this MD&A, under “Investment Property Valuation” in the “Use of Estimates and Judgments” section.

PORTFOLIO REVIEW	OPERATIONAL REVIEW	FINANCIAL REVIEW	DEVELOPMENT	CAPITAL MANAGEMENT	RISK MANAGEMENT	JOINT VENTURES	OTHER	NON-GAAP MEASURES	FORWARD-LOOKING INFORMATION
------------------	--------------------	------------------	-------------	--------------------	-----------------	----------------	-------	-------------------	-----------------------------

	September 30, 2024	December 31, 2023	September 30, 2023
VECTOM	5.17 %	5.10 %	4.85 %
Major Markets	6.16 %	6.16 %	6.14 %
Rest of Canada	6.92 %	6.93 %	6.88 %
Weighted average portfolio capitalization rate	5.95 %	5.92 %	5.77 %

Crombie's weighted average capitalization rate has increased relative to December 31, 2023. Since September 30, 2023, market capitalization rates in general have expanded despite solid fundamentals. The increase in capitalization rates is largely the result of tight financial conditions, including higher borrowing costs and uncertainty around monetary policy.

	GLA (sq. ft.)	
	September 30, 2024	September 30, 2023
VECTOM	6,494,000	6,477,000
Major Markets	4,845,000	4,843,000
Rest of Canada	7,958,000	7,862,000
Total	19,297,000	19,182,000

When compared to September 30, 2023, Rest of Canada GLA increased by 96,000 square feet largely due to non-major development activity, as well as the acquisition of two grocery-anchored retail properties in 2024. Major Markets and VECTOM GLA increased by 2,000 square feet and 17,000 square feet, respectively. The increase in VECTOM GLA is primarily driven by non-major development activity over the last twelve months, partially offset by the disposition of one retail property in VECTOM in the second quarter of 2024.

Asset Type

Crombie's portfolio of GLA and fair value, inclusive of joint ventures at Crombie's share, consisted of the following as at September 30, 2024:

(1) Other includes PUD and land.

PORTFOLIO REVIEW	OPERATIONAL REVIEW	FINANCIAL REVIEW	DEVELOPMENT	CAPITAL MANAGEMENT	RISK MANAGEMENT	JOINT VENTURES	OTHER	NON-GAAP MEASURES	FORWARD-LOOKING INFORMATION
------------------	--------------------	------------------	-------------	--------------------	-----------------	----------------	-------	-------------------	-----------------------------

Retail properties represent 79.6% of Crombie's GLA and 76.0% of fair value at September 30, 2024, compared to 79.6% of Crombie's GLA and 77.8% of fair value at September 30, 2023.

	GLA (sq. ft.)

Mixed-use residential	515,000	514,000
Total	19,297,000	19,182,000

When compared to September 30, 2023, retail GLA increased 87,000 square feet largely due to the acquisition of two grocery-anchored retail properties in the Rest of Canada in 2024 and non-major development activity. Retail-related industrial GLA increased 26,000 square feet due to the substantial completion of a co-owned property in VECTOM in the first quarter of 2024.

Portfolio Review - Excluding Joint Ventures

Below are select operating metrics for the full portfolio presented without inclusion of Crombie's partial ownership interests in eight joint ventures, four of which currently hold property. Partial ownership interests are reflected in Crombie's financial statements, based on its proportionate ownership in joint operations.

On October 15, 2024, Crombie acquired the remaining 50% interest in the Davie LP joint venture for total consideration of \$133,000, excluding closing and transaction costs.

Market Class

Crombie's portfolio of GLA and fair value consisted of the following as at September 30, 2024:

Rest of Canada	6.92 %	6.93 %	6.88 %
Weighted average portfolio capitalization rate	6.12 %	6.12 %	5.96 %

Crombie’s weighted average capitalization rate, excluding joint ventures, has remained stable relative to December 31, 2023. Since September 30, 2023, market capitalization rates in general have expanded despite solid fundamentals. The increase in capitalization rates compared to September 2023 is largely the result of tight financial conditions, including higher borrowing costs and uncertainty around monetary policy.

Crombie’s portfolio diversification by market class of its investment properties as at September 30, 2024 and 2023 is as follows:

GLA (sq. ft.)

(1) Changes in GLA include increases for completed developments and additions/expansions to GLA on existing properties.

(2) Property cash NOI for the nine months ended September 30.

For the nine months ended September 30, 2024, two grocery-anchored retail properties, at full interest totalling 62,000 square feet, were acquired in the Rest of Canada. This was partially offset by the disposition of one retail property, owned at a partial interest totalling 15,000 square feet, in VECTOM. Crombie completed the development of one retail-related industrial asset, of which it has a 50% ownership, adding 26,000 square feet in VECTOM in addition to the development of a retail freestanding building in VECTOM for 2,000 square feet. These additions to GLA are included in “Other” changes.

When compared to September 30, 2023, the percentage of annual minimum rent (“AMR”) generated from the Rest of Canada increased by 20 basis points, while Major Markets AMR decreased by 10 basis points, and VECTOM AMR decreased by 10 basis points.

Please see the “Operational Performance” section of this MD&A, under “Occupancy and Leasing Activity” for additional information on economic and committed occupancy.

Asset Type

Retail properties represent 81.8% of Crombie’s GLA and 82.2% of fair value at September 30, 2024, compared to 81.8% of GLA and 84.4% of fair value at September 30, 2023.

(1) Other includes PUD and land.

(1) Changes in GLA include increases for completed developments and additions/expansions to GLA on existing properties and reclassifications within asset types.

(2) Property cash NOI for the nine months ended September 30.

For the nine months ended September 30, 2024, retail GLA had a net increase of 47,000 square feet due to the acquisition of two grocery-anchored properties, Powell River, and Golden IGA, at full interest in the Rest of Canada, partially offset by the disposition of one property, Broadview Avenue, in VECTOM, in which Crombie held a partial interest. Crombie completed the development of one retail-related industrial asset, Alberta Central Kitchen, in VECTOM, of which it has a 50% ownership, adding 26,000 square feet, in addition to the development of a retail freestanding building in VECTOM for 2,000 square feet. These additions to GLA are included in "Other" changes.

Crombie continues to enhance its portfolio asset mix with a balance of grocery-anchored retail and retail-related industrial, as well as mixed-use residential properties, creating long-term value for local communities and Unitholders. Grocery-anchored retail will continue to grow; however, as a result of Crombie's development strategy, residential and retail-related industrial asset types are expected to make up a greater percentage of its total portfolio in the future.

Please see the "Operational Performance" section of this MD&A, under "Occupancy and Leasing Activity" for additional information on economic and committed occupancy.

As equity-accounted joint ventures are not reflected in this information, the applicable residential square footage, occupancy, and asset mix details of these joint ventures are reflected in the "Total Portfolio Review Inclusive of Joint Ventures" section of this MD&A on page 9 and the "Joint Ventures" section of the MD&A on page 60.

Non-major Development - Completed

Property development is a strategic priority for Crombie and included in that is non-major development projects with expected costs of less than \$50,000. Non-major developments are accretive with shorter project durations and less overall risk than major development projects. For the nine months ended September 30, 2024, Crombie added 28,000 square feet of GLA to its portfolio.

Tenant Profile

Crombie builds and owns a high-quality, resilient, and diversified portfolio, backed primarily by grocery tenants, which delivers consistent long-term earnings and cash flow stability. As at September 30, 2024, 81% of Crombie's AMR was generated from grocery-anchored properties, inclusive of retail-related industrial, unchanged from September 30, 2023. These necessity-based tenants have stable underlying income and cash flows, are more resilient to changes in economic cycles and evolving retail trends, and form a solid foundation for organic same-asset property cash NOI^(*) and AFFO^(**) growth.

(1) Necessity-based retailers include tenants that provide essential products and services, and predominantly fall into the following categories: grocery, pharmacy, liquor, dollar store, cannabis, convenience store, gasoline, pet supplies, grocery distribution centres, quick service restaurants, medical, professional and personal services, banking and financial services.

(1) Includes Sobeys and all other subsidiaries of Empire Company Limited.

Other than Empire, which accounts for 58.9% of AMR, and Shoppers Drug Mart, which accounts for 2.4% of AMR, no other tenant accounts for more than 1.7% of Crombie's AMR. Empire's percent of AMR increased by 40 basis points compared to September 30, 2023 due to the acquisition of two assets anchored by Empire over the last 12 months, the development of retail-related industrial assets, modernizations, and contractual rent step-ups. For more information regarding the assignment, see the "Quarterly Information" in the "Other Disclosures" section of this MD&A, starting on page 67.

For the nine months ended September 30, 2024, Empire represents 55.8% of total property revenue. Total property revenue includes minimum rent, as well as operating and realty tax cost recovery income and percentage rent. These additional amounts can vary by property type, specific tenant leases, and where tenants may directly incur and pay operating costs.

The weighted average remaining term of all Crombie leases is approximately 8.6 years, which decreased 0.4 years as compared to September 30, 2023. This remaining lease term is influenced by the weighted average Empire remaining lease term of 11.0 years, which decreased 0.5 years from September 30, 2023.

Same-asset Properties

Crombie measures certain performance and operating metrics on a same-asset basis to evaluate the period-over-period performance of those properties owned and operated by Crombie. "Same-asset" refers to those properties that were owned and operated by Crombie for the current and comparative reporting periods. Properties that will be undergoing a redevelopment in a future period and those for which planning activities are underway are also in this category until such development activities commence and/or tenant leasing/renewal activity is suspended. Same-asset property cash NOI^(*) reflects Crombie's proportionate ownership of jointly-operated properties (and excludes any properties held in joint ventures).

Strategic Acquisitions and Dispositions

As at September 30, 2024, GLA, at Crombie's interest, of its investment properties was 18.8 million square feet compared to 18.7 million square feet as at September 30, 2023. The increase in GLA is due to 62,000 square feet of acquisitions and 67,000 square feet of other changes throughout the portfolio, primarily from non-major development activity. This is partially offset by 15,000 square feet of dispositions.

Strategic Acquisitions

Through strategic and selective acquisitions of high-quality, primarily grocery-anchored assets, Crombie intends to continue to enhance overall portfolio quality. Crombie's acquisitions are intended to add strategic value to the portfolio, while leading to AFFO^(*) accretion and NAV^(*) growth. During the nine months ended September 30, 2024, Crombie completed the acquisitions of two grocery-anchored retail properties, one from a related party, for a total purchase price of \$13,640 excluding transaction and closing costs. The properties added 62,000 square feet, located in the Rest of Canada.

Strategic Dispositions

From time to time, in line with Crombie's strategy on capital recycling, Crombie will participate in strategic dispositions. Proceeds from dispositions can be used for debt reduction, to fund development projects, and to seize other higher-value opportunities. Some of these opportunities include supporting Empire's growth and completion of major mixed-use developments.

(1) New leases include new leases and expansions at existing properties.

(2) Other includes amendments to existing leases, lease terminations and surrenders, bankruptcies, space certifications, and reclassifications within asset types.

(3) Committed space represents lease contracts for future occupancy of currently vacant space. Management believes such reporting, along with reported lease maturities, provides more balanced reporting of overall vacant space.

Committed occupancy was 96.1% at September 30, 2024 and 96.4% at September 30, 2023. For the nine months ended September 30, 2024, Crombie had an increase from net acquisition activity of 47,000 square feet and had new leases outpace lease expiries by 78,000 square feet.

Committed occupancy in Crombie's retail properties portfolio was 96.1% at September 30, 2024 and 96.2% September 30, 2023. This decrease is primarily due to natural lease expiries and early terminations, and was partially offset by new leases. Committed occupancy in office properties was 86.7% at September 30, 2024, which decreased from 91.0% at September 30, 2023. This was primarily due to natural lease expiries, terminations, and tenant downsizing, and was partially offset by new leases. Committed space in retail-related industrial properties of 100.0% at September 30, 2024 remained constant from 100.0% at September 30, 2023.

The portfolio average AMR per occupied square foot for Crombie's income-producing properties was \$18.02 as at September 30, 2024, an increase of 3.0%, compared to \$17.49 as at September 30, 2023.

New Leasing Activity

New leases increased occupancy by 187,000 square feet at September 30, 2024, at an average first year rate of \$24.00 per square foot.

For the nine months ended September 30, 2024, 54.0% of new leases, equivalent to 101,000 square feet, were completed in Rest of Canada markets. Notable new leases in these markets included a grocery tenant and another necessity-based tenant. In VECTOM and Major Markets, 86,000 square feet, or 46.0% of new leases, were completed in the first nine months of 2024, including a retail-related industrial tenant in VECTOM and a grocery tenant in Major Markets.

At September 30, 2024, 42,000 square feet of GLA at an average first year rate of \$19.97 per square foot was committed, with tenants expected to take possession throughout the rest of 2024 and early 2025. VECTOM and Major Markets represent 22,000 square feet of committed space with Rest of Canada representing the remaining 20,000 square feet of committed space.

Renewal Activity

For the nine months ended September 30, 2024, renewal activity for Crombie's portfolio was as follows:

	Three months ended September 30, 2024			Nine months ended September 30, 2024		
	Square Feet	Rate PSF	Growth %	Square Feet	Rate PSF	Growth %
2024 Renewals	102,000	\$17.77	20.9 %	434,000	\$19.23	11.6 %
Future Year Renewals	257,000	\$17.03	5.6 %	467,000	\$17.67	8.0 %
Total	359,000	\$17.24	9.7 %	901,000	\$18.42	9.8 %

Renewal spreads are based on the first-year rate and do not factor in any additional rent step-ups that may take place throughout the lease term. Crombie's renewal activity for the three months ended September 30, 2024 included retail renewals of 348,000 square feet with an increase of 9.8% over expiring rental rates. For the nine months ended September 30, 2024, Crombie renewed 867,000 square feet of retail renewals with an increase of 10.3% over expiring rental rates.

When comparing the expiring rental rates to the weighted average rental rate for the renewal term, Crombie achieved an increase of 11.8% and 11.5% for the three and nine months ended September 30, 2024, respectively.

On a year-to-date basis, total renewal growth was positively impacted by the 239,000 square feet of renewals in VECTOM at an average first year rate of \$22.37 per square foot, an increase of 12.8% over expiring rental rates. Excluding one lease with renewal growth over 100.0%, VECTOM renewals had an increase of 9.0% over expiring rental rates. Major Markets saw renewals of 145,000 square feet, with an increase of 10.8% over expiring rental rates or an average first year rate of \$23.53 per square foot. Rest of Canada accounted for the remaining 517,000 square feet of renewals at an average first year rate of \$15.17, with an increase of 7.3% over expiring rental rates.

Crombie proactively manages its lease maturities, taking advantage of opportunities to renew tenants prior to expiration. During the nine months ended September 30, 2024, 467,000 square feet of renewals related to future year expiries were completed.

(1) Property revenue and property operating expenses for the three and nine months ended September 30, 2023 have been increased by \$4,898 and \$14,694, respectively, as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

Operating Income Attributable to Unitholders

For the three months ended:

Operating income attributable to Unitholders decreased by \$1,226, or 4.4%, primarily driven by higher Unit-based compensation costs of \$2,143 resulting from an increase in Crombie's Unit price and increased interest expense of \$2,012. Reduced income from equity-accounted investments of \$1,345 due to the sale of land at Crombie's Opal Ridge joint venture in the third quarter of 2023 further contributed to the decrease. This was offset in part by growth in net property income of \$3,553 from new developments, renewals, new leasing, and supplemental rent from modernization investments.

For the nine months ended:

Operating income attributable to Unitholders increased by \$9,596, or 13.2%, on a year-to-date basis. Excluding employee transition costs of \$784 (September 30, 2023 - \$7,172), operating income attributable to Unitholders increased by 4.0%. Lower employee transition costs in the second quarter of 2024 compared to the same period in 2023 and organizational changes in the current year resulted in lower general and administrative expenses of \$5,697, which was the primary driver of the increase in operating income. Also contributing to the variance year over year was growth in property revenue of \$5,807 from new developments, \$4,520 from renewals and new leasing, and \$1,700 in supplemental rent from modernization investments. Increased revenue from management and development services of \$1,595 and higher gain on disposal of investment properties of \$1,575 compared to the same period in 2023 further contributed to the increase. The growth in operating income was offset in part by an increase of \$4,713 in interest expense and reduced income from equity-accounted investments of \$2,964 due to the sale of land at Crombie's Opal Ridge joint venture in 2023. Further offsetting the increase in operating income was \$2,000 in impairment of an investment property in the second quarter of 2024, an increase in depreciation and amortization of \$1,586 due to accelerated depreciation on properties scheduled for redevelopment, acquisitions, and recently completed developments, and increased tenant incentive amortization of \$1,515 primarily from modernizations.

Net Property Income^(*)

Management uses net property income^(*) as a measure of performance of properties period over period. Refer to the "Non-GAAP Financial Measures" section of this MD&A, starting on page 69, for a more detailed discussion on net property income^(*).

Net property income^(*), which excludes revenue from management and development services and certain expenses such as interest expense and indirect operating expenses, is as follows:

	Three months ended September 30,			Nine months ended September 30,		
	2024	2023 ⁽¹⁾	Variance	2024	2023 ⁽¹⁾	Variance

For the three months ended:

An increase in net property income of \$3,553 was primarily due to growth in property revenue of \$1,539 from new developments, \$806 from renewals and new leasing, and \$733 in supplemental rent from modernization investments.

For the nine months ended:

An increase in net property income of \$11,992, compared to the same period in 2023, was primarily due to growth in property revenue of \$5,807 from new developments, \$4,520 from renewals and new leasing, and \$1,700 in supplemental rent from modernization investments. The growth in net property income was partially offset by increased tenant incentive amortization of \$1,515 primarily from modernizations.

Same-asset Property Cash NOI^(*)

Management uses net property income^(*) on a cash basis (property cash NOI^(*)) as a measure of performance as it reflects the cash generated by properties period over period. Refer to the “Non-GAAP Financial Measures” section of this MD&A, starting on page 69, for a more detailed discussion on property cash NOI^(*).

Net property income on a cash basis^(*), which excludes non-cash straight-line rent recognition and amortization of tenant incentive amounts, is as follows:

(1) Refer to “Amortization of Tenant Incentives” on page 31 for a breakdown of tenant incentive amortization.

Development property cash NOI includes properties that are currently being developed and/or have recently completed development. Change in cash NOI from development properties period over period is impacted by the timing of commencement and completion of each development project. The nature and extent of development projects results in operations being impacted minimally in some instances, and more significantly in others. Consequently, comparison of period-over-period development operating results may not be meaningful.

Funds from Operations (FFO)^(*)

Crombie follows the recommendations of the January 2022 guidance of the Real Property Association of Canada ("REALPAC") in calculating FFO^(*). Refer to the "Non-GAAP Financial Measures" section of this MD&A, starting on page 69, for a more detailed discussion on FFO^(*).

(1) Includes the fair value changes of Crombie's deferred unit plan.

For the three months ended:

The decrease in FFO of \$340 was primarily due to higher Unit-based compensation costs of \$2,143 resulting from an increase in Crombie's Unit price and increased interest expense of \$2,012. Reduced income from equity-accounted investments of \$1,345 due to the sale of land at Crombie's Opal Ridge joint venture in the third quarter of 2023 further contributed to the decrease in FFO. This was offset in part by growth in net property income of \$3,553 from new developments, renewals, new leasing, and supplemental rent from modernization investments.

For the nine months ended:

On a year-to-date basis, FFO increased by \$13,505 primarily driven by lower general and administrative expenses of \$5,697 resulting from lower employee transition costs of \$784 in the second quarter of 2024 compared to \$7,172 in the second quarter of 2023 and organizational changes in the current year. Also contributing to the variance year over year was growth in property revenue from new developments of \$5,807, \$4,520 from renewals and new leasing, and \$1,700 in supplemental rent from modernization investments. Increased revenue from management and development services of \$1,595 further contributed to the increase in FFO. FFO growth was offset in part by an increase of \$4,713 in interest expense and reduced income from equity-accounted investments of \$2,964 due primarily to the sale of land at Crombie's Opal Ridge joint venture in Dartmouth, Nova Scotia in 2023.

FFO excluding employee transition costs of \$784 was \$169,702 or \$0.93 per Unit, with a payout ratio of 71.7% (September 30, 2023 - FFO of \$162,585 or \$0.91 per Unit, with a payout ratio of 73.7% excluding employee transition costs of \$7,172).

Adjusted Funds from Operations (AFFO)^(*)

Crombie follows the recommendations of REALPAC's January 2022 guidance in calculating AFFO^(*) and has applied these recommendations to the AFFO^(*) amounts included in this MD&A. Refer to the "Non-GAAP Financial Measures" section of this MD&A, starting on page 69, for a more detailed discussion.

The reconciliation of AFFO^(*) for the three and nine months ended September 30, 2024 and 2023 is as follows:

For further details on Crombie's maintenance expenditures, refer to the "Non-GAAP Financial Measures" section of this MD&A.

For the three months ended:

The decrease in AFFO was primarily due to the same factors impacting FFO for the quarter.

For the nine months ended:

The growth in AFFO on a year-to-date basis was driven primarily by the same factors impacting FFO. It was partially offset by the increase in maintenance expenditures of \$1,051, caused in part by the increased charge from \$1.10 to \$1.15 per square foot of weighted average GLA.

AFFO excluding employee transition costs of \$784 was \$146,790 or \$0.81 per Unit, with a payout ratio of 82.9% (September 30, 2023 - AFFO of \$142,161 or \$0.79 per Unit, with a payout ratio of 84.3% excluding employee transition costs of \$7,172).

Distributions to Unitholders

A trust that satisfies the criteria of a real estate investment trust ("REIT") throughout its taxation year will not be subject to income tax in respect of distributions to its Unitholders that would otherwise apply to trusts classified as specified investment flow-through entities ("SIFTS").

Crombie has organized its assets and operations to satisfy the criteria contained in the Income Tax Act (Canada) in regard to the definition of a REIT. Crombie's management and its advisors have completed an extensive review of Crombie's organizational structure and operations to support Crombie's assertion that it met the REIT criteria throughout 2023 and continues to do so. The relevant tests apply throughout the taxation year and, as such, the actual status of Crombie for any particular taxation year can only be ascertained at the end of the year.

Pursuant to Crombie's Declaration of Trust, cash distributions are to be determined by the trustees at their discretion. Subject to approval of the Board of Trustees, Crombie intends to make distributions to Unitholders of not less than the amount equal to the taxable income of Crombie, to ensure that Crombie will not be liable for income taxes.

Details of distributions to Unitholders are as follows:

	Three months ended September 30,			Nine months ended September 30,

(1) Crombie Limited Partnership, a subsidiary of Crombie, has also issued Class B LP Units. These Class B LP Units accompany the Special Voting Units, are the economic equivalent of a Unit, and are exchangeable for Units on a one-for-one basis.

Pursuant to the requirement of National Policy 41-201, Income Trusts and Other Indirect Offerings, the tables below outline the differences between cash provided by operating activities and cash distributions, and operating income attributable to Unitholders and cash distributions, respectively, in accordance with the policy guidelines.

Monthly distributions paid for the three and nine months ended September 30, 2024 and 2023 were funded with cash flows from operating activities and borrowing on the bank credit facilities. Operating income attributable to Unitholders includes depreciation and amortization, which does not directly impact the level of income Crombie generates that can be paid out in distributions.

On October 16, 2024, Crombie declared distributions of 7.417 cents per Unit for the period from October 1, 2024 up to and including October 31, 2024. The distributions will be paid on November 15, 2024, to Unitholders of record as at October 31, 2024.

Amortization of Tenant Incentives

Tenant incentives are amortized on a straight-line basis over the term of existing leases and the amortization is shown as a reduction in property revenue. From time to time, Crombie invests in value-enhancing property modernizations that result in lease amendments. These investments are amortized over the lease term and reduce the associated increase in property revenue.

General and Administrative Expenses

The following table outlines the major categories of general and administrative expenses:

	Three months ended September 30,			Nine months ended September 30,		
	2024	2023	Variance	2024	2023	Variance
Salaries and benefits	\$ 2,303	\$ 2,638	\$ 335	\$ 7,672	\$ 11,014	\$ 3,342

As a percentage of property revenue	5.3 %	4.4 % ⁽²⁾	(0.9)%	4.6 %	6.5 % ⁽²⁾	1.9 %

(1) Unit-based compensation includes both employees and trustees.

(2) Property revenue for the three and nine months ended September 30, 2023 has been increased by \$4,898 and \$14,694, respectively, as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

For the three months ended:

General and administrative expenses increased in the quarter due to higher Unit-based compensation costs of \$2,143 resulting from an increase in Crombie's Unit price. General and administrative expenses excluding Unit-based compensation of \$2,333 were 3.2% of property revenue (September 30, 2023 - 4.2% excluding Unit-based compensation of \$190).

For the nine months ended:

On a year-to-date basis, the decrease in general and administrative expenses was driven by lower salaries and benefits of \$3,342 and lower Unit-based compensation costs of \$2,145. These decreases resulted primarily from lower employee transition costs compared to the same period in 2023 and organizational changes in 2024. The decrease in Unit-based compensation costs was partially offset by an increase in Crombie's Unit price. General and administrative expenses excluding employee transition costs and Unit-based compensation of \$4,120 were 3.5% of property revenue (September 30, 2023 - 4.1% of property revenue excluding employee transition costs and Unit-based compensation of \$8,119).

Finance costs - operations	\$ 22,677	\$ 20,665	\$ (2,012)	\$ 67,142	\$ 62,429	\$ (4,713)

For the three months ended:

Finance costs increased by \$2,058 primarily due to higher interest expense on senior unsecured notes of \$2,493. This was partially offset by a decrease of \$547 due to higher capitalized interest from increased development activity and reduced floating rate debt interest expense resulting from lower average loan balances compared to the same period in 2023.

For the nine months ended:

On a year-to-date basis, finance costs increased by \$4,868 primarily due to the issuance of Series L notes in the first quarter of 2024 and the issuance of Series K notes in the first quarter of 2023, resulting in an increase of \$8,368 in interest on senior unsecured notes. The increase was partially offset by increased capitalized interest of \$1,494 and a decrease of \$1,471 on floating rate debt resulting from lower average loan balances.

Depreciation, Amortization, and Impairment

Crombie's total fair value of investment properties exceeds carrying value by \$1,230,191 at September 30, 2024 (December 31, 2023 - \$1,109,289). Crombie uses the cost method of accounting for investment properties and increases in fair value over carrying value are not recognized until realized through disposition or derecognition of properties, while impairment, if any, is recognized on a property-by-property basis when circumstances indicate that the carrying value may not be recoverable.

Impairment	\$ —	\$ —	\$ —	\$ 2,000	\$ —	\$ (2,000)

For the three months ended:

The increase in depreciation and amortization of \$525 for the quarter was due to acquisitions.

For the nine months ended:

On a year-to-date basis, depreciation and amortization increased by \$1,586 primarily due to accelerated depreciation on properties scheduled for redevelopment, acquisitions, and recently completed developments.

In the second quarter of 2024, Crombie recorded an impairment totalling \$2,000 on a retail property in the Rest of Canada. This impairment was the result of vacancy at the property. Impairment is measured on a per property basis and is determined as the amount by which the carrying value, using the cost method, exceeds the recoverable amount for the property. The recoverable amount is the higher of the economic benefit of the continued use of the asset and the selling price less costs to sell. The recoverable amount was

determined to be the economic benefit of the continued use of the asset. To calculate the benefit of the continued use of the asset, Crombie utilizes the present value of the estimated future cash flows, discounted using a discount rate based on the risk associated with the property.

6. DEVELOPMENT

Property development is a strategic priority for Crombie to improve NAV^(*), cash flow growth, and Unitholder value. With urban intensification an important reality across the country, Crombie is focused on evaluating and undertaking major and non-major developments at certain properties, where development may include residential, commercial, and/or retail-related industrial. This discussion of Crombie's development activities contains forward-looking information. Refer to the "Forward-looking Information" section of this MD&A starting on page 74 for additional information regarding such statements and the related risks and uncertainties.

Crombie has a strategic relationship with Empire, and the majority of Crombie's development properties currently have Empire as an anchor tenant. Crombie's strategic relationship enables the organization to unlock value and transition from existing operating properties to construction/development of these sites on mutually agreeable terms. In conjunction with Crombie's strategic partner, the organization's management continuously reviews and prioritizes development opportunities that drive NAV^(*) and cash flow growth, including high-density urban redevelopment, new grocery-anchored retail, retail-related industrial e-commerce facilities, and land-use intensification.

Major Development Pipeline

Crombie has the potential to unlock significant value within its current pipeline of 26 major development projects as at September 30, 2024 (September 30, 2023 - 27). Crombie benefits from having solid income (NOI, FFO^(*), and AFFO^(*)) generated by most of these properties while working through the various approvals, entitlements, and advance preparations required before each major development can commence.

The organization's major development plans include the development of mixed-use properties with a focus on grocery-anchored retail and, wherever practical, primarily purpose-built residential rental accommodations that provide revenue, diversification, and growth to Crombie. Crombie views this approach as the optimal way to drive both NAV^(*) and cash flow growth. From time to time, Crombie may enter into partnerships to complete developments to share knowledge, risk, and expertise. In certain cases, residential condominium uses may also be considered, as will certain other uses (e.g. retail-related industrial), to satisfy municipal requirements and/or market opportunities.

Management uses project assumptions to calculate the pipeline cost range, factoring in a degree of uncertainty that comes with a diverse pipeline that spans 15 years or longer. Uncertainty can come in the form of changing project scopes, moving certain properties in or out of the pipeline, variations in the entitlement process, the potential of engaging joint venture partners, dispositions of pipeline properties, and a variety of external factors that may affect project costing. Costs presented in Crombie's pipeline are reflective of current construction cost estimates on a market-by-market basis. Crombie monitors inflationary pressures impacting construction costs and adjusts pipeline assumptions when necessary. Given that some of these projects may not reach the full potential of the original scope, management discloses a low and high range to reasonably estimate the pipeline costs. As at September 30, 2024, total project costs to develop the pipeline range from \$5,000,000 to \$6,800,000 (September 30, 2023 - \$5,100,000 to \$6,900,000). Year-over-year changes in the pipeline can be attributed to changing project scopes, changing project costs, the ongoing refinement of development assumptions, completions and removals of properties from the pipeline, and evolving opportunities in the pipeline. Crombie may enter joint ventures or other partnership arrangements for these properties to share cost, risk, and development expertise, depending upon the nature of each project. Each selected project remains subject to normal development approvals, achieving required economic hurdles, and Board of Trustees' approval.

Crombie divides its development pipeline into three timing-based segments. Near-term projects are either under active construction or indicate that a decision to commit financially is expected to be determined within the next two years. Medium-term projects have a timeline to commitment of two years to five years, and long-term projects are expected to be committed within five to 15 years. Many projects in the current pipeline are large, multi-phased endeavors where the project timeline could span several years. In these instances, Crombie recognizes the project in the time period where financial commitment to the initial phase is expected.

Active Major Developments

Crombie currently has one active major development underway, The Marlstone, located in downtown Halifax, which is Crombie's first self-developed residential project. Key project metrics are summarized in the below table.

							\$ in millions		
Property	CMA	Use	Ownership %	Residential GLA on Completion	Residential Units	Estimated Substantial Completion Date	Estimated Total Cost	Estimated Cost to Complete	Estimated Yield on Cost
The Marlstone	Halifax	Residential	100%	189,000	291	Q1/Q2 2026	\$ 134 ⁽¹⁾	\$ 90	4.5 % - 5.5 %

(1) Costs presented for The Marlstone are exclusive of land costs.

Total estimated costs include soft and hard construction costs, tenant inducements, external leasing costs, finance costs, and capitalized interest and other carrying costs, such as capitalized construction and development wages, and property taxes. These costs are determined by using internal knowledge and external professional resources, where applicable. Project capital cost uncertainty exists, and project cost estimates contain a contingency for capital cost exceedances in the ordinary course. Historically, capital cost exceedances in the 5%-10% range are reflective of such contingencies.

These estimates and assumptions are reviewed and updated regularly and are subject to changes, which could be material. Estimated total costs are based on assumptions that are updated regularly, based on revised site plans, cost tendering processes, market studies, and continuing tenant negotiations. These assumptions are based on access to job sites, supply and labour availability, ability to attract tenants, estimated GLA, and tenant mix among rental, air rights sale, tenant rents, building sizes, and availability and cost of construction financing. Within specific projects, scheduling and/or completion timing uncertainty exists, and project economics can handle reasonable delays in the range of 10%. Estimations included in the chart are believed to be reasonable, but there can be no assurance that actual results will be consistent with these projections.

Estimated annual net operating income is calculated using first year stabilized annual rent for each tenant, assuming 100% occupancy. These estimates are established using market rents, Crombie's market knowledge, and/or using externally generated market studies. The estimated yield on cost is derived from dividing the estimated annual net operating income by the estimated total project costs. Crombie determines the yield on cost range from the approved pro forma while factoring in a margin of uncertainty on both sides of the approved yield.

Near-term Projects

The table below provides additional detail on Crombie's near-term development opportunities.

Property	City	% Ownership	Full Project Density		
			Estimated Commercial GLA	Estimated Residential GLA	Estimated Residential Units
The Marlstone	Halifax	100 %	—	189,000	291
1780 East Broadway (Broadway and Commercial)	Vancouver	50 % ⁽¹⁾	105,000	626,000	970
Belmont Market - Phase II	Victoria	100 %	—	145,000	200
Total near-term developments			105,000	960,000	1,461

(1) Crombie will own 100% of the retail portion of this development.

Full project density reflects estimated GLA upon completion. Estimated GLA on completion is based on applicable standards of area measurement determined through internal site plans and drawings, and using external massing studies, where applicable.

Near-term Project Update

The Marlstone, Halifax, Nova Scotia

Type: Residential

Ownership: 100%

Project status: The Marlstone is a 291-unit residential rental project in the heart of downtown Halifax, located within the Scotia Square mixed-use retail, office, and hotel complex. Demolition and existing building upgrades commenced in May 2023 and construction continues to progress well. Completion is expected in the first half of 2026.

1780 East Broadway (Broadway and Commercial), Vancouver, British Columbia

Type: Retail/Residential

Ownership: 100% retail, 50% residential and office

Project status: East Broadway is a proposed major mixed-use redevelopment on 2.4 acres of land located at one of the busiest transit nodes in Western Canada. A rezoning application is in process with the City of Vancouver that comprises a mix of grocery-anchored retail, rental residential, and office. Rezoning is expected to be completed in 2025, which could support construction tendering in 2025.

Belmont Market - Phase II, Victoria, British Columbia

Type: Residential

Ownership: 100%

Project status: Belmont Market - Phase II envisions the development of approximately 200 residential units on the remaining 1.7 acres of land within the Belmont Market development area. The lands are fully entitled and could be ready for construction tendering in 2025.

Total Development Pipeline

In addition to near-term projects, Crombie is actively working on its pipeline to ensure a consistent inventory of projects. A number of potential major developments in Crombie's pipeline are large, multi-phased projects spanning over a decade in total duration. For the charts and tables outlined throughout this section, Crombie has summarized total project costs and GLA data at the date of its financial commitment to Phase 1. The following chart and table detail total project cost estimates by category at September 30, 2024:

Crombie Development Spending by Project Timeline
As at September 30, 2024

Project Timeline	Number of Projects	At Crombie's Share (\$ in millions)

Long-term	16	2,300-3,300	180	2,120-3,120
Total pipeline	26	\$ 5,000-6,800	\$ 350	\$ 4,650-6,450

(1) Many projects in the pipeline are multi-phased. Project costs are shown to align with the first phase of project commencement. Project timelines are subject to change.

(2) Total spend to date includes Crombie's total investment in land at these properties, with the exception of The Marlstone.

Crombie continuously monitors and evaluates the potential pipeline to optimize value creation. With a strong commitment to portfolio growth, Crombie actively analyzes costs and market opportunities within the potential pipeline in order to maximize NAV^(*) and cash flow growth.

Total estimated costs usually include land cost on the existing income-producing properties upon transfer to the development, soft and hard construction costs, tenant inducements, external leasing costs, finance costs, and capitalized interest and other carrying costs, such as capitalized construction and development wages, and property taxes. These costs are determined by using internal knowledge and external professional resources, where applicable. Project capital cost uncertainty exists, and project cost estimates contain a contingency for capital cost exceedances in the ordinary course. Historically, capital cost exceedances in the 5%-10% range are reflective of such contingencies.

For joint venture projects, partners may provide estimates, which Crombie reviews and analyzes to determine final estimates.

These estimates and assumptions are reviewed and updated regularly and are subject to changes that could be material. Estimated total costs are based on assumptions that are updated regularly, including revised site plans, cost tendering processes, market studies, and continuing tenant negotiations. These assumptions are based on supply and labour availability, ability to attract tenants, estimated GLA, tenant rents, building sizes, and availability and cost of construction financing. Within specific projects, scheduling and/or completion timing uncertainty exists, and project economics can handle reasonable delays in the range of 10%. Estimations included in the chart are believed to be reasonable, but there can be no assurance that actual results will be consistent with these projections.

Crombie’s current pipeline has the potential to add up to 1,144,000 square feet of commercial GLA, and up to 9,460,000 square feet (up to 11,291 units) of residential GLA (which may include a combination of rental or condominium units).

An important part of creating a sustainable development program is a systematic approach to proactively moving potential development lands through the entitlement process to obtain zoning approvals. Crombie currently has eight of these 26 potential major projects either already zoned or identified for rezoning and is currently in various stages of entitlement pursuit as noted in the following chart:

Crombie's Entitled Projects

Zoning is in place for the following development sites: The Marlstone (Halifax), Belmont Market - Phase II (Victoria), Barrington Residential (Halifax), and Brunswick Place (Halifax). Rezoning applications have been submitted and are in process for Broadway and Commercial (Vancouver), McCowan and Ellesmere (Toronto), Park West (Halifax), and Toronto East (Toronto).

Non-major Developments

Non-major developments, categorized as land-use intensification, property redevelopments, and modernizations, include projects with a total estimated cost below \$50,000 at Crombie's share. Projects in the non-major category are shorter in duration and thus boast less overall risk as compared to Crombie's major development pipeline. Current non-major developments have a yield range of 6.9% to 8.0%. These projects have the ability to create value while enhancing the overall quality of the portfolio. The below table summarizes active non-major developments within Crombie's portfolio at September 30, 2024.

Type	Project Count	Estimated GLA on Completion	At Crombie's Share (\$ in thousands)		
			Estimated Total Cost	Estimated Cost to Complete ⁽²⁾	
Land-use intensification, redevelopments, and other	1	52,000	\$ 26,494	\$ 21,025	
Modernizations ⁽¹⁾	84	—	31,156	—	
Total non-major developments	85	52,000	\$ 57,650	\$ 21,025	
Yield on cost projections	6.9% - 8.0%				

(1) Modernizations are capital investments to modernize/renovate Crombie-owned grocery-anchored properties in exchange for a defined return and potential extended lease term. The spend on completed modernizations for the three and nine months ended September 30, 2024 was \$4,719 and \$31,156, respectively (three and nine months ended September 30, 2023 - \$4,170 and \$16,977, respectively).

(2) Estimated cost to complete reflects approved projects currently in progress. It does not include potential future projects for which approvals have not yet been obtained.

In the third quarter of 2024, one redevelopment was completed and one land use intensification was completed which totalled 2,000 square feet. Modernization activity for the nine months ended September 30, 2024 totalled \$31,156 at 84 properties.

Total estimated costs include land cost on the existing income-producing properties in certain occasions such as greenfield non-major developments, soft and hard construction costs, tenant inducements, external leasing costs, finance costs, and capitalized interest and other carrying costs, such as capitalized construction and development wages, and property taxes. These costs are determined by using internal knowledge and external professional resources, where applicable. Project capital cost uncertainty exists, and project cost estimates contain a contingency for capital cost exceedances in the ordinary course. Historically, capital cost exceedances in the 5%-10% range are reflective of such contingencies.

These estimates and assumptions are reviewed and updated regularly and are subject to changes, which could be material. Estimated total costs are based on assumptions that are updated regularly, based on revised site plans, cost tendering processes, market studies, and continuing tenant negotiations. These assumptions are based on access to job sites, supply and labour availability, ability to attract tenants, estimated GLA, and tenant mix among rental, air rights sale, tenant rents, building sizes, and availability and cost of construction financing. Within specific projects, scheduling and/or completion timing uncertainty exists, and project economics can handle reasonable delays in the range of 10%. Estimations included in the chart are believed to be reasonable, but there can be no assurance that actual results will be consistent with these projections.

Estimated annual net operating income is calculated using first year stabilized annual rent for each tenant, assuming 100% occupancy. These estimates are established using market rents, Crombie's market knowledge, and/or using externally generated market studies. The estimated yield on cost range is derived from dividing the estimated annual NOI by the estimated total project costs, factoring in a margin for uncertainty.

7. CAPITAL MANAGEMENT

FAIR VALUE OF UNENCUMBERED ASSETS (\$ in billions)

Crombie continues to reduce risk and build financial strength by strategically managing its capital structure and optimizing capital allocation to generate long-term value for its stakeholders. Crombie's continued success is underpinned by a strong balance sheet, more-than-adequate liquidity, and an investment-grade credit rating profile providing Crombie with a solid financial foundation and financial flexibility.

Capital Management Framework

Crombie's strategic capital management objectives consist of four main priorities:

1. maintain multiple sources of debt and equity financing;
2. reduce risk by prefunding capital commitments;
3. source capital with the lowest cost on a long-term basis and maintain overall indebtedness at reasonable levels, utilize staggered debt maturities, minimize long-term exposure to excessive levels of floating rate debt; and
4. maintain conservative payout ratios.

At a minimum, Crombie's capital structure is managed to ensure that it complies with the limitations pursuant to its Declaration of Trust, the criteria contained in the Income Tax Act (Canada) in regard to the definition of a REIT, and existing debt covenants.

Crombie's Declaration of Trust sets out the investment guidelines for Crombie's capital deployment. The Declaration of Trust outlines the minimum due diligence that must be completed prior to a project being approved by the Investment Committee and/or Board. Crombie's Board ensures continued compliance with the Declaration of Trust through the review and approval of the annual operating and capital budgets, annual confirmation of Crombie's strategic plan, and approval of individual projects. The annual budget will detail the level of projected capital spend for a given year and how the required capital will be funded, as well as various key performance indicators and impacts on debt covenants. The Board monitors performance quarterly, or on a more frequent basis if needed. In addition, the Board and management regularly review unspent committed capital (i.e. unfunded capital requirements of partially completed projects), with a lens towards Crombie's available liquidity, leverage metrics, and sources of financing.

Crombie expects to be able to satisfy all of its financing requirements through the use of some or all of the following:

- cash on hand;
- cash flow generated from operating the property portfolio;
- cash distributions from Crombie's joint ventures;
- bank credit facilities;
- proceeds from partial or full disposition of select non-core investment properties;
- traditional construction financing;
- CMHC-insured mortgages on residential properties;
- secured mortgages and term debt on unencumbered properties;
- issuance of senior unsecured notes;
- issuance of new Units; and
- issuance of Units under its DRIP.

Debt Metrics

Crombie monitors its debt by utilizing a number of key metrics, including the following:

	September 30, 2024	December 31, 2023	September 30, 2023
Unencumbered investment properties ⁽¹⁾	\$ 2,651,000	\$ 2,608,000	\$ 2,582,000
Unencumbered investment properties ⁽¹⁾ as a % of unsecured debt ^(*)	186.9 %	205.6 %	206.2 %
Debt to gross fair value ^(*)	42.9 %	43.0 %	42.4 %
Weighted average interest rate ⁽²⁾	4.2 %	4.1 %	4.0 %
Debt to trailing 12 months adjusted EBITDA ^(*)	7.72x	8.03x	8.13x
Interest coverage ratio ^(*)	3.31x	3.06x	3.41x

(1) Represents fair value of unencumbered properties.

(2) Calculated based on interest rates for all outstanding fixed rate debt.

Crombie has continued to grow its unencumbered asset pool, increasing its fair value from \$2,608,000 as at December 31, 2023 to \$2,651,000 as at September 30, 2024. This increase is primarily due to modernization investments and mortgage maturities.

Debt to Gross Fair Value^(*)

When calculating debt to gross fair value^(*), debt is defined as obligations for borrowed money, including obligations incurred in connection with acquisitions, excluding trade payables and accruals in the ordinary course of business, and distributions payable. Debt includes Crombie's share of debt held in equity-accounted joint ventures.

Gross fair value includes investment properties measured at fair value, including Crombie's share of those held within equity-accounted joint ventures. All other components of gross fair value are measured at the carrying value included in Crombie's financial statements. Crombie's methodology for determining the fair value of investment properties includes capitalization of trailing 12 months net property income^(*) using biannual capitalization rates from external property valuers. The majority of investment properties are also subject to external, independent appraisals on a rotational basis over a period of not more than four years. Valuation techniques are more fully described in Crombie's year-end audited financial statements.

The fair value included in this calculation reflects the fair value of the properties as at September 30, 2024 and December 31, 2023, respectively, based on each property's current use as a revenue-generating investment property. Additionally, as properties are prepared for redevelopment, Crombie considers each property's progress through entitlement in determining the fair value of a property. As at September 30, 2024, Crombie's weighted average capitalization rate of 6.12% used in the determination of the fair value of its investment properties has remained stable relative to December 31, 2023. Crombie's weighted average capitalization rate used in the determination of the fair value of its share of investment properties held in equity-accounted joint ventures was 3.85% as at September 30, 2024, an increase of 18 basis points from December 31, 2023. For an explanation of how Crombie determines capitalization rates, see the "Other Disclosures" section of this MD&A, under "Investment Property Valuation" in the "Use of Estimates and Judgments" section.

Debt to gross fair value^(*) was 42.9% at September 30, 2024 compared to 43.0% at December 31, 2023.

The decrease in this leverage ratio during the nine months ended September 30, 2024 was due primarily to an increase of \$176,000 in gross fair value of investment properties, repayment of credit facilities of \$91,521, and reduced balances of mortgages outstanding of \$71,385. This was offset in part by the issuance of \$200,000 of senior unsecured notes, a decrease of \$44,500 in gross fair value of investment properties held in equity-accounted joint ventures, and the reduction of other assets of \$35,859 from the reclassification of other assets to investment properties and properties under development.

Debt to Adjusted EBITDA^(*) and Interest Coverage^(*) Ratios

The following table presents a reconciliation of operating income attributable to Unitholders to adjusted EBITDA^(*). Adjusted EBITDA^(*) is a non-GAAP measure and should not be considered an alternative to operating income attributable to Unitholders, and may not be comparable to that used by other entities. Refer to the "Non-GAAP Financial Measures" section of this MD&A, starting on page 69, for more information.

In calculating adjusted EBITDA^(*), Crombie includes its share of revenue, operating expenses, and general and administrative expenses in joint ventures, and excludes its share of amortization of tenant incentives in joint ventures. Interest coverage^(*) and debt service coverage^(*) calculations also include Crombie's share of finance costs - operations and debt repayments in joint ventures.

On March 6, 2024, Crombie issued, on a private placement basis, \$200,000 of Series L notes (senior unsecured) maturing March 29, 2030. The net proceeds were used to repay existing indebtedness, including repayment of outstanding credit facilities, and for general trust purposes. The Series L notes were priced with an effective yield to maturity of 5.14%. Interest is payable in equal semi-annual installments on March 29 and September 29.

On October 11, 2024, Crombie issued, on a private placement basis, \$300,000 of Series M senior unsecured notes at an effective interest rate of 4.73%, maturing January 15, 2032.

On October 31, 2024, Crombie redeemed \$175,000 principal amount of its 4.80% Series E senior unsecured notes which were originally scheduled to mature on January 31, 2025.

There are no required periodic principal payments, with the full face value of the notes due on their respective maturity dates.

(1) Availability is limited by development spending to date.

(2) Availability is limited by mortgages held in the joint operations.

(3) Includes credit facility that is fixed under a swap agreement.

On September 4, 2024, Crombie secured a construction financing facility with an initial maturity date of December 1, 2025 on a residential property currently under development. The construction facility carries a floating rate which varies with the lender's cost of funds. Upon completion of the development, Crombie has the ability to convert the facility to a fixed rate with an initial term of 10 years.

The revolving credit facility is secured by a pool of first mortgages on certain properties and has a maturity date of June 30, 2027. The unsecured non-revolving credit facility was amended in the first quarter of 2024 to renew the \$200,000 maximum principal amount following repayment with proceeds from the issuance of Series L senior unsecured notes. The facility has a maturity date of November 18, 2025 and is intended to be used for mortgage repayments. The unsecured bilateral credit facility was amended in the second quarter of 2024 to extend the maturity date to June 30, 2026. It is used by Crombie for working capital purposes and to provide temporary financing for acquisitions and development activity. Joint operation credit facility II consists of term loan and revolving credit facilities which are secured by first and second mortgages on select co-owned properties. Crombie and its co-ownership partners entered into fixed-for-floating interest rate swaps, effectively fixing the interest rate on the joint operation facility.

In the second quarter of 2024, in anticipation of the cessation of the publication of Canadian Dollar Offered Rate ("CDOR"), all credit facilities were amended such that borrowings under all credit facilities are possible by way of prime rate advance or Canadian Overnight Repo Rate Average ("CORRA"). The use of CORRA rates, which replaced Bankers' Acceptance rates, did not result in a material change in Crombie's cost of borrowing under the credit facilities. The respective spread or margin may change depending on Crombie's unsecured bond rating with Morningstar DBRS.

As at September 30, 2024, the remaining amount available under the revolving credit facility was approximately \$395,357 (prior to reduction for standby letters of credit outstanding of \$5,208) and was not limited by the aggregate borrowing base. Crombie has remained in compliance with all debt covenants.

The terms of the unsecured bilateral revolving credit facility and the unsecured non-revolving credit facility also require annualized NOI on all properties to be a minimum of 1.4 times the coverage of all annualized debt service requirements and cash distributions to Unitholders to be limited to 100% of funds from operations as defined in the credit facilities. Crombie is in compliance with this requirement.

Crombie's contractual debt obligations and projected development expenditures can be funded from the following financing sources:

- secured and unsecured short-term financing, subject to available borrowing base;
- recycling capital through the disposition of select investment properties;
- secured mortgage and term debt on unencumbered properties;
- issuance of additional senior unsecured notes;
- issuance of new Units;
- entering into new joint arrangements; and
- cash.

(1) Cash provided by (used in) operating and financing activities for the three and nine months ended September 30, 2023 was updated from the previously reported figures to show finance costs - operations net of non-cash items.

Operating Activities

For the three months ended:

The decrease in cash provided by operating activities was primarily due to a reduction in the net change in non-cash working capital items of \$11,651, an increase in additions to tenant incentives of \$7,658, and higher Unit-based compensation costs of \$2,143 resulting from an increase in Crombie's Unit price. This was partially offset by higher property cash NOI^(*) of \$2,881 due to growth in property revenue.

For the nine months ended:

The increase in cash provided by operating activities on a year-to-date basis was primarily due to higher property cash NOI^(*) of \$12,261, reduced general and administration expenses of \$5,697 due to lower employee transition costs compared to 2023, and increased revenue from management and development services of \$1,595. This was partially offset by a decrease in the net change in non-cash working capital items of \$19,000.

Financing Activities

For the three months ended:

The increase in cash used in financing activities was due primarily to lower advances on floating rate credit facilities of \$31,353 compared to \$48,706 in the third quarter of 2023 and higher interest expense payments of \$4,970. This is offset in part by lower mortgage repayments of \$17,029.

For the nine months ended:

The increase in cash used in financing activities on a year-to-date basis was primarily driven by higher net repayments on floating rate credit facilities of \$103,755 and the \$32,967 issuance of mortgages in 2024 compared to \$48,660 in 2023. Increased interest expense payments of \$6,800 and higher cash distributions to Unitholders of \$1,088 further contributed to the increase in cash used. This was partially offset by lower mortgage repayments of \$63,355 and the repayment of the joint operation credit facility I of \$7,167 in the second quarter of 2023.

Investing Activities

For the three months ended:

The decrease in cash used in investing activities resulted primarily from a decrease in predevelopment costs of \$16,012, lower additions to leasing costs of \$11,299, and higher collection of notes receivable from related parties of \$2,103. This was offset in part by an increase in acquisitions of investment properties of \$3,838 and higher additions to investment properties of \$2,977.

For the nine months ended:

The decrease in cash used in investing activities was primarily due to a decrease in acquisitions of investment properties of \$13,825, higher collection of notes receivable from related parties of \$13,442, and lower additions to investment properties of \$12,915. A decrease in predevelopment costs of \$12,883, lower additions to leasing costs of \$11,692, and proceeds on disposal of investment properties of \$6,218 also contributed to the decrease. This was partially offset by lower distributions from equity-accounted investments of \$4,760 and increased contributions of \$2,179 to equity-accounted investments.

Off Balance Sheet Commitments and Guarantees

There are claims and litigation in which Crombie is involved, arising out of the ordinary course of business operations. In the opinion of management, any liability that would arise from such contingencies would not have a significant adverse effect on these operating results.

Crombie has agreed to indemnify its trustees and officers, and particular employees, in accordance with Crombie's policies. Crombie maintains insurance policies that may provide coverage against certain claims.

Crombie obtains standby letters of credit to support its obligations with respect to construction work on its investment properties and satisfying mortgage financing requirements. As at September 30, 2024, Crombie has a total of \$5,208 (December 31, 2023 - \$5,342) in outstanding letters of credit related to construction work being performed on investment properties. Crombie does not believe that any of these standby letters of credit are likely to be drawn upon.

As at September 30, 2024, Crombie had signed construction contracts totalling \$268,603, of which \$196,537 has been paid.

Crombie has committed to funding \$37,926 in development costs at 1700 East Broadway Limited Partnership, of which \$719 has been funded as at September 30, 2024.

Crombie has provided 100% guarantees on mortgages related to properties classified as joint operations in which it has less than a 100% interest. The mortgages payable related to these guarantees are secured by specific charges against the properties. As at September 30, 2024, Crombie has provided guarantees of approximately \$38,421 (December 31, 2023 - \$81,781) on mortgages in excess of their ownership interest in the properties. Responsibility for ongoing payments of principal and interest on these mortgages remains with the joint owners of the properties. The mortgages have a weighted average term to maturity of 2.6 years.

Crombie and its partners have provided joint and several guarantees on 100% of debt outstanding in the following joint ventures: Bronte Village Limited Partnership \$242,498 (December 31, 2023 - \$223,000), 1600 Davie Limited Partnership \$178,143 (December 31, 2023 - \$184,015), 1700 East Broadway Limited Partnership \$19,400 (December 31, 2023 - \$17,400), and 140 CPN Limited \$3,147 (December 31, 2023 - \$3,200). Crombie includes its 50% ownership interest in the outstanding debt related to these joint ventures in its debt metrics. Each mortgage-related debt supported by a joint and several guarantee is secured by the income-producing property related to the mortgage.

Under the terms of head leases with certain of Crombie's joint operation partners, Crombie guarantees its joint operation partners their portion of any uncollected rent receivable from the sub-tenant.

Financial Instruments

The fair value of a financial instrument is the estimated amount that Crombie would receive to sell a financial asset or pay to transfer a financial liability in an orderly transaction between market participants at the measurement date.

PORTFOLIO REVIEW	OPERATIONAL REVIEW	FINANCIAL REVIEW	DEVELOPMENT	CAPITAL MANAGEMENT	RISK MANAGEMENT	JOINT VENTURES	OTHER	NON-GAAP MEASURES	FORWARD- LOOKING INFORMATION
---------------------	-----------------------	---------------------	-------------	-----------------------	--------------------	----------------	-------	----------------------	------------------------------------

Fair value determination is classified within a three-level hierarchy, based on observability of significant inputs, as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - unobservable inputs for the asset or liability.

There were no transfers between levels of the fair value during the nine months ended September 30, 2024.

Due to their short-term nature, the carrying value of the following financial instruments approximates their fair value at the balance sheet date:

- Accounts receivable
- Trade and other payables

The fair value of other financial instruments is based on discounted cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks. The following table summarizes the estimated fair value of other financial instruments that have a fair value different from their carrying value:

	September 30, 2024		December 31, 2023	
	Fair Value	Carrying Value	Fair Value	Carrying Value ⁽¹⁾
Financial liabilities				
Investment property debt	\$ 817,321	\$ 816,042	\$ 956,601	\$ 979,019
Senior unsecured notes	1,364,570	1,371,463	1,108,474	1,171,769
Total financial liabilities	\$ 2,181,891	\$ 2,187,505	\$ 2,065,075	\$ 2,150,788

(1) Carrying values for 2023 were updated to include deferred financing costs.

Financial assets are derecognized when the contractual rights to benefits from the financial asset expire.

The fair values of investment property debt and senior unsecured notes are Level 2 measurements.

8. RISK MANAGEMENT

Risk Management Framework

Management of the REIT is vested in the Board of Trustees, subject to the provisions of applicable statutes and the Declaration of Trust. The Board of Trustees of the REIT shall have explicit responsibility for the stewardship of the REIT including the strategic planning process, approval of the strategic plan, the identification of principal risks and implementation of systems to manage these risks, succession planning, operations, communications and reporting, and the integrity of the REIT's internal control and management information systems. The Board discharges certain of its responsibilities through delegation to its committees as more particularly set out in the committee mandates.

Risk Factors Related to the Business of Crombie

In the normal course of business, Crombie is exposed to a number of risks that can affect its operating performance.

In addition to the more fulsome description of Crombie's risk discussion under the "Risk Management" section in the 2023 annual MD&A, and the "Risks" section of Crombie's 2023 Annual Information Form available at www.sedarplus.ca, the following is a specific risk update for September 30, 2024:

Significant Relationship

As at September 30, 2024, Empire, through its wholly owned subsidiary ECL Developments Limited ("ECLD"), holds a 41.5% indirect interest in Crombie. Crombie's anchor tenants are concentrated in a relatively small number of retail operators. Specifically, for the nine months ended September 30, 2024, 58.9% of the AMR and 55.8% of total property revenue generated from Crombie's properties is derived from anchor tenants that are owned and/or operated by Empire (including Sobeys and all other subsidiaries of Empire). Therefore, Crombie is reliant on the sustainable operation by Empire in these locations.

Financial Risk Management

The following table outlines Crombie's financial risks, how these risks are managed, and whether there was a change in risk exposure compared to the prior year.

Credit Risk

Risk Description	Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. A provision for doubtful accounts and other adjustments to net property income ⁽¹⁾ are taken for all anticipated collectability risks.
Risk Management	Crombie mitigates credit risk by geographical diversification, diversifying both its tenant mix and asset mix, and conducting credit assessments for new and renewing tenants. The residential component of Crombie's investment in joint ventures further diversifies its portfolio. In measuring tenant concentration, Crombie considers both the AMR and total property revenue of major tenants. - Crombie's largest tenant, Empire (including Sobeys and all other subsidiaries of Empire), represents 58.9% of AMR. No other tenant accounts for more than 2.4% of Crombie's AMR; - total property revenue includes base rent as well as operating and realty tax cost recovery income, and percentage rent. These amounts can vary by property type, specific tenant leases, and where tenants may directly incur and pay operating costs. Crombie earned total property revenue of \$194,886 for the nine months ended September 30, 2024 (September 30, 2023 - \$185,684⁽¹⁾) from Sobeys and other subsidiaries of Empire; and - over the next five years, leases on no more than 7.6% of the gross leasable area of Crombie will expire in any one year. Receivables are substantially comprised of current balances due from tenants and past due receivables. The balance of accounts receivable past due is usually not significant. Generally, rents are due the first of each month and other tenant billings are due 30 days after invoicing, and balances over 30 days are considered past due. Crombie determines the expected credit loss in accordance with the IFRS 9 "Financial Instruments" simplified approach for amounts receivable where its loss allowance is measured at initial recognition and throughout the life of the receivable. Trade receivables are written off when there is no reasonable expectation of recovery. Crombie assesses, on a forward-looking basis, the expected credit losses associated with its rent receivables. In determining the expected credit losses, Crombie takes into account, on a tenant-by-tenant basis, the payment history, future expectations, and knowledge gathered through discussions for rental concessions and ongoing discussions with tenants. During the nine months ended September 30, 2024, Crombie recorded bad debt recovery of \$(12) (September 30, 2023 - expense of \$152). Crombie's trade receivables and provision for doubtful accounts balances at September 30, 2024 were \$21,941 and \$(1,127), respectively (December 31, 2023 - \$18,605 and \$(1,396), respectively). Crombie manages its residual risk in its investment properties through an active capital expenditure program and actively leasing any vacant spaces. The residual risk throughout Crombie's portfolio is not considered significant, although a prolonged state of economic shutdown can impact Crombie's ability to execute on its capital expenditure program and leasing activity.

(1) Property revenue for the nine months ended September 30, 2023 has been increased by \$14,490 as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

Liquidity Risk

Risk Description	Liquidity risk is the risk that Crombie may not have access to sufficient debt and equity capital to fund its growth program, refinance debt obligations as they mature, or meet its ongoing obligations as they arise.
Risk Management	The real estate industry is capital intensive, and most assets are non-current in nature. These assets produce income through long-term leases, which funds current liabilities as they come due. While rents are contractually committed, they are not recognized as current assets, and this imbalance creates a working capital deficit, despite cash flows from contractually committed rents and credit facilities being more than adequate to satisfy current liabilities. Cash flow generated from operating the property portfolio represents the primary source of liquidity used to service the interest on debt, fund general and administrative expenses, reinvest in the portfolio through capital expenditures, as well as fund tenant incentive costs and make distributions to Unitholders. Debt repayment requirements are primarily funded from refinancing Crombie's maturing debt obligations. Property acquisition funding requirements are funded through a combination of accessing the debt and equity capital markets and recycling capital from property dispositions. There is a risk that the debt capital markets may not refinance maturing fixed rate and floating rate debt on terms and conditions acceptable to Crombie, or on any terms at all. Crombie seeks to mitigate this risk by staggering its debt maturity dates. There is also a risk that the equity capital markets may not be receptive to a REIT Unit offering issuance from Crombie with financial terms acceptable to Crombie. Access to debt and equity capital markets may also be affected by national and international events, and economic conditions beyond Crombie's control. Crombie mitigates its exposure to liquidity risk utilizing a disciplined approach to capital management. There is a risk that credit ratings may change. No ratings agency has issued a credit rating with respect to the Units, and no credit rating of the Units will be sought or obtained by Crombie. As at September 30, 2024, Crombie's credit rating on outstanding senior unsecured notes was "BBB(low)" with a "Positive" trend from Morningstar DBRS. Credit ratings may not reflect all risks associated with an investment in Crombie's securities. Any credit ratings applied to the notes are an assessment of Crombie's ability to pay its obligations generally. Consequently, real or anticipated changes in the credit ratings will generally affect the market value of the notes. The credit ratings, however, may not reflect the potential impact on the value of the notes of risks related to structure, market, or other factors discussed under the heading "Risk Factors" in Crombie's 2023 Annual Information Form. Crombie is under no obligation to maintain any specified level of credit rating with credit rating agencies, and there is no assurance that any credit rating assigned to the notes will remain in effect for any given period of time or that any rating will not be lowered or withdrawn entirely by the relevant rating agency. A lowering, withdrawal, or failure to maintain any credit ratings applied to the notes may have an adverse effect on the market price or value and the liquidity of the notes. Credit ratings are not recommendations to purchase, hold, or sell the notes or other securities of Crombie. Any future lowering of Crombie's ratings is likely to make it more difficult or more expensive for Crombie to obtain additional debt financing. Access to the \$400,000 revolving credit facility is limited by the amount utilized under the facility and the amount of any outstanding letters of credit, and it cannot exceed the borrowing base security provided by Crombie. Refer to the "Debt Maturities" section of this MD&A for a maturity analysis of Crombie's recognized financial liabilities and purchase obligations.

---------------------	-----------------------	---------------------	-------------	-----------------------	--------------------	----------------	-------	----------------------	------------------------------------

Interest Rate Risk

Risk Description	Interest rate risk is the potential for financial loss arising from increases in interest rates.																																																																																																
Risk Management	Crombie mitigates the risk of rising interest rates by utilizing staggered debt maturities and limiting the use of permanent floating rate debt and, on occasion, utilizing interest rate swap agreements. The interest swap rates would be based on Canadian bond yields, plus a premium, called the swap spread, which reflects the risk of trading with a private counterparty as opposed to the Canadian government. Under interest rate swap arrangements, Crombie would agree to pay the counterparty an amount if market interest rates decline, in return for the counterparty’s agreement to pay Crombie an amount if market interest rates increase. As a result, the combined effect of variable interest rates on certain debt arrangements coupled with the payment obligations under interest rate swap agreements is to stabilize Crombie’s net interest expense, as increased interest payments are partially offset by the right to receive payments under the interest rate swap agreements, while decreased interest payments are partially offset by the obligation to make payments under the interest rate swap agreements. In the event that interest rates change by more than was anticipated in the interest rate swap agreements, payment obligations under interest rate swap agreements could adversely impact Crombie’s financial condition and results of operations and decrease the amount of cash available for distribution. Crombie does not enter into these interest rate swaps on a speculative basis. Crombie is prohibited by its Declaration of Trust in purchasing, selling, or trading in interest rate future contracts other than for hedging purposes. The table below summarizes Crombie’s financial instruments in which hedge accounting was applied: <table><tr><th colspan="6">As at September 30, 2024</th></tr><tr><th>Hedge type</th><th>Maturity date</th><th>Fixed interest rate</th><th colspan="2">Notional amount of the hedging instrument⁽¹⁾</th><th>Fair value of hedging instrument⁽¹⁾</th></tr><tr><td>Cash flow hedge⁽²⁾</td><td>Dec. 20, 2024</td><td>3.72 %</td><td colspan="2">\$ 73,043</td><td>\$ 534</td></tr><tr><td>Cash flow hedge⁽²⁾</td><td>Mar. 18, 2025</td><td>3.52 %</td><td colspan="2">4,454</td><td>41</td></tr><tr><td>Cash flow hedge⁽²⁾</td><td>Oct. 7, 2024</td><td>3.27 %</td><td colspan="2">3,520</td><td>10</td></tr><tr><td>Cash flow hedge⁽³⁾</td><td>Mar. 1, 2029</td><td>3.15 %</td><td colspan="2">51,561</td><td>1,481</td></tr><tr><td colspan="3"></td><td colspan="2">\$ 132,578</td><td>\$ 2,066</td></tr></table> (1) Amounts are shown at Crombie’s ownership percentage. 9. JOINT VENTURES

As at September 30, 2024, Crombie holds partial ownership interests in eight joint ventures, four of which currently hold property. These joint ventures are all subject to equity accounting. As such, the results of these equity-accounted investments are not included in certain financial metrics, such as net property income^(*), property cash NOI^(*), and same-asset property cash NOI^(*), or in operational metrics such as occupancy and GLA, unless specifically indicated that such metrics are presented on a proportionate consolidation basis. (See the “Total Portfolio Review Inclusive of Joint Ventures” section of this MD&A for select operating metrics presented in this manner.) The figures presented below represent only the results of these joint ventures, at 100%, with the exception of FFO^(*).

On October 15, 2024, Crombie acquired the remaining 50% interest in the Davie LP joint venture for total consideration of \$133,000, excluding closing and transaction costs.

Joint Venture Summary

The following represents Crombie’s interest in joint venture investments:

1600 Davie Limited Partnership

Davie Street is a retail/residential mixed-used property consisting of 330 residential units and 54,000 square feet of retail GLA in Vancouver, British Columbia. Crombie maintains 100% ownership of the retail GLA, which is anchored by a 44,500 square foot Safeway, while the joint venture retains ownership of the 330 residential units. Stabilization of NOI was reached in September 2021 and the residential property is 94.5% leased at September 30, 2024.

Bronte Village Limited Partnership

The Village at Bronte Harbour is a retail/residential mixed-used property located in Oakville, Ontario. It is comprised of two residential towers incorporating 481 residential rental units and 55,000 square feet of grocery-anchored retail GLA that is owned by the joint venture. Substantial completion was reached on tower one in the third quarter of 2021, with the remaining residential tower completed during the first quarter of 2022. Stabilization of NOI was reached in April 2024 and the residential property is 92.5% leased at September 30, 2024.

The Duke Limited Partnership

Le Duke is a retail/residential mixed-use property in Montreal, Quebec, with an existing heritage building integrated into the ground floor of the property. The property incorporates 387 residential units, a 25,000 square foot IGA on the ground floor, and an additional 1,000 square feet of retail space that is owned by the joint venture. Stabilization of NOI was reached in December 2022 and the residential tower is 93.8% leased at September 30, 2024.

Penhorn Residential Holdings Limited Partnership

Opal Ridge (Penhorn), formerly referred to as Penhorn Lands, is a 26-acre parcel in Dartmouth, Nova Scotia, with zoning proposed for the development of multi-family parceled building lots. Entitlement and development agreements were approved in June 2022 with all land parcels being sold thereafter and the remaining land development activity completed at the end of 2023.

140 CPN Limited

Centennial Parkway is a retail plaza in Hamilton, Ontario, consisting of 33,000 square feet of retail GLA, which is fully leased and owned by the joint venture.

1700 East Broadway Limited Partnership

East Broadway (Broadway and Commercial) is a proposed major mixed-use redevelopment in Vancouver, British Columbia, located at one of the busiest transit nodes in Western Canada. It will include grocery-anchored retail, office, residential rental, and condominiums. The project is currently being rezoned and construction tendering could commence in 2025. The joint venture will own the residential and office components, with Crombie retaining 100% ownership of the retail.

Lynn Valley Limited Partnership

1170 East 27 Street is a proposed mixed-use redevelopment in North Vancouver, British Columbia. The joint venture is advancing entitlement by working through public engagement in advance of submitting a formal rezoning application.

Kingsway & Tyne Property Development Limited Partnership

3410 Kingsway is a proposed mixed-use redevelopment in Vancouver, British Columbia. The joint venture is currently working through early concept planning to support a policy inquiry submission which will allow municipal staff to provide early input on the redevelopment concept.

For the three months ended:

Net income (loss) decreased by \$2,277, primarily due to \$4,690 in net income on the disposition of land parcels at Opal ridge in Q3 2023. This was offset in part by revenue growth of \$1,410 at The Village at Bronte Harbour compared to the third quarter of 2023 due to ongoing lease-up efforts over the past 12 months and lower finance costs of \$1,135 as a result of CMHC financing put in place in 2024.

For the nine months ended:

Net income (loss) decreased by \$4,082, primarily due to \$11,445 in net income on the disposition of land parcels at Opal Ridge in 2023 and the reassessment of property taxes at Le Duke, resulting in higher operating costs in the current year. This was offset in part by growth of \$5,656 in net income at The Village at Bronte Harbour compared to the first nine months of 2023 due to ongoing lease-up efforts over the past 12 months and CMHC financing put in place in 2024.

For the three months ended:

Property cash NOI decreased by \$3,747 compared to the second quarter of 2023 primarily due to the sale of land parcels at Opal Ridge in Q3 2023. This was offset by ongoing lease-up efforts at The Village at Bronte Harbour over the past 12 months.

For the nine months ended:

On a year-to-date basis, property cash NOI decreased by \$7,540 compared to the same period in 2023, primarily due to the disposition of land parcels at Opal Ridge in 2023. This was partially offset by the ongoing lease-up efforts at The Village at Bronte Harbour over the past 12 months.

Fair Value

The estimated fair value of the investment properties held within Crombie's equity-accounted joint ventures at 100% is as follows:

	Fair Value		Carrying Value	
September 30, 2024	\$	856,000	\$	552,605
December 31, 2023	\$	945,000	\$	566,563

The fair value included in this summary reflects the fair value of the properties as at September 30, 2024 and December 31, 2023, respectively, based on each property's current use as a revenue-generating property or property under development. Additionally, as properties are prepared for redevelopment, Crombie considers each property's progress through entitlement in determining the fair value of a property. The fair value of properties under development is assumed to equal cost until the property is substantially completed. As at September 30, 2024, properties held within 1600 Davie Limited Partnership, Bronte Village Limited Partnership, The Duke Limited Partnership, and 140 CPN Limited are revenue-generating properties.

Crombie has utilized the following weighted average capitalization rates for its joint venture properties:

	September 30, 2024	December 31, 2023
Weighted average capitalization rate	3.85 %	3.67 %

Fair Value Sensitivity of the Investment Properties Held Within Crombie's Equity-accounted Joint ventures

Crombie has determined that a change in this applied capitalization rate and net operating income at September 30, 2024 would result in an (increase) decrease in the fair value of the investment properties as follows:

Crombie's joint ventures currently have an interest rate swap agreement in place on \$103,123 of floating rate debt.

10. OTHER DISCLOSURES

Related Party Transactions

As at September 30, 2024, Empire, through its wholly owned subsidiary ECLD, holds a 41.5% indirect interest in Crombie. Related party transactions primarily include transactions with entities associated with Crombie through Empire's indirect interest. Related party transactions also include transactions with joint venture entities in which Crombie has a 50% interest, as well as transactions with key management personnel and trustees, and post-employment benefit plans.

Related party transactions are measured at the amount of consideration established and agreed to by the related parties.

Crombie's transactions with related parties are as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2024	2023	2024	2023
Property revenue				
Property revenue	\$ 65,795	\$ 62,510 ⁽¹⁾	\$ 194,886	\$ 185,684 ⁽¹⁾

(1) Property revenue for the three and nine months ended September 30, 2023 has been increased by \$4,830 and \$14,490, respectively, as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

Crombie provides property management, development management, project management, leasing services, and environmental management to co-owners and to specific properties owned by certain subsidiaries of Empire on a fee-for-service basis pursuant to a Property Management Agreement, which is being recognized as revenue from management and development services.

Included in the above, during the nine months ended September 30, 2024, Crombie issued 921,637 (September 30, 2023 - 820,806) Class B LP Units to ECLD under the DRIP.

During the nine months ended September 30, 2024, Crombie invested \$33,903 (September 30, 2023 - \$16,977) in properties anchored by subsidiaries of Empire, which resulted in amended lease terms. These amounts have been included in tenant incentive additions and the costs are being amortized over the amended lease terms.

Crombie has a mortgage payable of \$24,622 (December 31, 2023 - \$24,876) due to 1600 Davie Limited Partnership that has interest at 3.22% and matures December 1, 2027. This mortgage relates to the commercial component of the Davie Street development, 100% of which is included in Crombie's financial statements.

During the nine months ended September 30, 2024, Crombie acquired one retail property from a subsidiary of Empire for a total purchase price of \$3,760 before closing and transaction costs.

Use of Estimates and Judgments

The preparation of consolidated financial information requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities, income, and expenses. Significant judgment, estimate, and assumption items include impairment, employee future benefits, investment properties, purchase price allocations, and fair value of financial instruments. These estimates are based on historical experience and management's best knowledge of current events and actions that Crombie may undertake in the future.

PORTFOLIO REVIEW	OPERATIONAL REVIEW	FINANCIAL REVIEW	DEVELOPMENT	CAPITAL MANAGEMENT	RISK MANAGEMENT	JOINT VENTURES	OTHER	NON-GAAP MEASURES	FORWARD- LOOKING INFORMATION
---------------------	-----------------------	---------------------	-------------	-----------------------	--------------------	----------------	-------	----------------------	------------------------------------

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revisions affect only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Accounting Estimates and Assumptions

Critical accounting estimates and assumptions are discussed more fully under the “Critical Accounting Estimates and Assumptions” section of the 2023 annual MD&A. The estimates and assumptions that are critical to the determination of the amounts reported in the September 30, 2024 financial statements relate to the following:

Fair Value Measurement

A number of assets and liabilities included in Crombie’s financial statements require measurement at, and/or disclosure of, fair value. In estimating the fair value of an asset or a liability, Crombie uses market-observable data to the extent it is available. Where market-observable data is not available, Crombie estimates the fair value based on discounted future cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks.

Investment Properties

Investment properties are carried at cost less accumulated depreciation. Crombie estimates the residual value and useful lives of investment properties and the significant components thereof to calculate depreciation and amortization.

Investment Property Valuation

External, independent valuation companies, having appropriate, recognized professional qualifications and recent experience in the location and category of properties being valued, value substantially all of Crombie’s investment property portfolio on a rotating basis over a maximum period of four years. On a periodic basis, Crombie obtains independent appraisals such that approximately 85% of its properties, by value, will be externally appraised over a four-year period. The fair values, based on the measurement date, represent the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Internal quarterly valuations are performed using the capitalized net operating income method, using internally generated valuation models prepared considering the aggregate trailing annual net property income^(*) recognized from leasing the property, which is stabilized for any major tenant movement. The key assumptions are the capitalization rates for each specific property and stabilized net property income^(*). Crombie is responsible for the reasonableness of the assumptions and for the accuracy of inputs that are used to determine its valuation disclosures. Crombie receives biannual capitalization rate reports (June and December) from an independent valuation company, which reflect the specific risks inherent in the net property income^(*), to arrive at property valuations. The capitalization rate reports provide a range of rates for various geographic regions and for various types and qualities of properties within each region. Management selects the rate for each property from the range provided that management believes is most appropriate in its judgment. In addition to this, Crombie uses the market information obtained in external appraisals each quarter and makes relevant adjustments to its input assumptions. As at September 30, 2024, management’s determination of fair value was updated for current market assumptions, including net property income^(*), market capitalization rates, and recent appraisals provided by independent appraisal professionals. For properties under development, fair value is assumed to equal cost until the property is substantially completed.

Critical Judgments

Critical judgments are discussed under the “Critical Judgments” section of the 2023 annual MD&A.

Controls and Procedures

Crombie maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed by Crombie in its annual filings, interim filings, or other reports filed or submitted by it under securities legislation is recorded, processed, summarized, and reported within the time periods specified in the securities legislation. Controls and procedures are designed to ensure that information required to be disclosed by Crombie is accumulated and communicated to Crombie’s management, including its President and Chief Executive Officer (“CEO”), and Chief Financial Officer (“CFO”), as appropriate, to allow timely decisions regarding disclosure. Crombie’s CEO and CFO have evaluated the design and effectiveness of its disclosure controls and procedures as at September 30, 2024. They have concluded that the current disclosure controls and procedures are effective.

In addition, Crombie's CEO and CFO have designed, or caused to be designed under their supervision, internal controls over financial reporting ("ICFR") to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes as defined in National Instrument 52-109. The control framework management used to design and assess the effectiveness of ICFR is *Internal Control-Integrated Framework (2013)* issued by The Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Further, Crombie's CEO and CFO have evaluated, or caused to be evaluated under their supervision, the effectiveness of the design and operation of ICFR as at September 30, 2024 and have concluded that its current ICFR are effective based on that evaluation. There have been no material changes to Crombie's internal controls during the period.

Variations in quarterly results over the past eight quarters have been influenced by the following specific transactions and ongoing events:

- Property acquisitions and dispositions (gross proceeds excluding closing and transaction costs) for each of the above three-month periods were:
 - September 30, 2024 - acquisition of one retail property in the Rest of Canada for a total purchase price of \$3,760;
 - June 30, 2024 - acquisition of one retail property in the Rest of Canada for a total purchase price of \$9,880 and disposition of one retail property in VECTOM for proceeds of \$13,000 at Crombie's share;
 - March 31, 2024 - no acquisitions or dispositions;
 - December 31, 2023 - no acquisitions or dispositions;
 - September 30, 2023 - no acquisitions or dispositions; a payment of \$16,361 was made to a subsidiary of Empire in connection with the assignment of 24 subleases to Crombie for retail sites in Western Canada;
 - June 30, 2023 - acquisition of one retail property in the Rest of Canada for a total purchase price of \$9,760;
 - March 31, 2023 - acquisition of two retail properties in the Rest of Canada for a total purchase price of \$16,722; and
 - December 31, 2022 - disposition of two retail properties, one in VECTOM and one in Major Markets, for proceeds of \$113,418.
- Property revenue and property operating expenses - Crombie's business is subject to seasonal fluctuations. Property operating expenses during winter months include particular expenses such as snow removal, which is a recoverable expense, thus increasing property revenue during these same periods. Property operating expenses during the summer and fall periods include particular expenses such as paving and roof repairs.
- Per Unit amounts for FFO^(*) and AFFO^(*) are influenced by operating results as detailed above and by the timing of the issuance of REIT Units and Class B LP Units.

11. NON-GAAP FINANCIAL MEASURES

There are financial measures included in this MD&A that do not have a standardized meaning under IFRS Accounting Standards. Management includes these measures as they represent key performance indicators to management, and it believes certain investors use these measures as a means of assessing relative financial performance. These measures, as computed by Crombie, may differ from similar computations as reported by other entities and, accordingly, may not be comparable to other such entities. These measures are defined below and are cross-referenced, as applicable, to a reconciliation elsewhere in this MD&A to the most comparable IFRS Accounting Standards measure.

Non-GAAP Measure	Description and Purpose	Reconciliation
Operating income attributable to Unitholders excluding employee transition costs	Management believes that the removal of expenditures for employee transition costs, whose timing and magnitude is highly variable, from operating income attributable to Unitholders is a useful calculation in providing a comparable measure of Crombie's financial performance period over period.	"Operating Income Attributable to Unitholders" starting on page 26
Net property income	- Property revenue less property operating expenses, excluding revenue from management and development services and certain expenses such as interest expense and indirect operating expenses. - Management believes that net property income is a useful measure of operating performance by the properties period over period.	"Net Property Income ^(*) " starting on page 26
Property NOI on a cash basis	- Property NOI on a cash basis, which excludes non-cash straight-line rent recognition and non-cash tenant incentive amortization. - Management believes that Property NOI on a cash basis is an important measure of operating performance as it reflects the cash generated by the properties period over period.	"Same-asset Property Cash NOI ^(*) " starting on page 27
Same-asset property cash NOI	- Same-asset properties are properties owned and operated by Crombie throughout the current and comparative reporting periods, excluding any property that was designated for redevelopment, or was subject to disposition, during either the current or comparative period. Same-asset property cash NOI includes Crombie's proportionate ownership of jointly operated properties but currently excludes properties owned in joint ventures. - Management believes this is a useful measure in understanding period-over-period changes in property cash NOI before considering the changes in NOI that can be attributed to the certain transactions such as acquisitions and dispositions. - The number of same-asset properties was 288 as at September 30, 2024. Non-GAAP Measure	Description and Purpose	Reconciliation
Funds from operations ("FFO")	- Crombie considers FFO to be a useful measure in evaluating the recurring economic performance of its operating results which will be used to support future distribution payments. - Crombie follows the recommendations of REALPAC's January 2022 guidance in calculating FFO, and defines FFO as increase (decrease) in net assets attributable to Unitholders (computed in accordance with IFRS Accounting Standards), adjusted for the following applicable amounts: - gain or loss on disposal of investment properties and related income tax; - gain on distribution from equity-accounted investments; - impairment charges and recoveries; - depreciation and amortization expense of investment properties, including amortization of tenant incentives charged against property revenue; - adjustments for equity-accounted entities; - operational expenses from right-of-use assets; - incremental internal leasing expenses; - finance costs - distributions on Crombie's REIT and Class B LP Units classified as financial liabilities; and - change in fair value of financial instruments. - REALPAC provides for other adjustments in determining FFO which are currently not applicable to Crombie and therefore not included in the above list. Crombie's expenditures on tenant incentives are capital in nature and Crombie considers these costs comparable to other capital costs incurred to earn property revenue. As a result, where depreciation and amortization of other capital costs are added back in the calculation of FFO as recommended by REALPAC, Crombie also adds back the amortization of tenant incentives. - Crombie calculates FFO per Unit using the basic weighted average Units outstanding for the period. Management believes this is a useful measure in comparing period-over-period operating results. - Crombie uses this metric as an input in debt covenant calculations.	"Funds from Operations (FFO) ^(*) " starting on page 29
FFO payout ratio	- FFO payout ratio shows the proportion of FFO paid to Unitholders in the form of distributions for the period, expressed as a percentage of FFO. - FFO payout ratio is calculated by dividing finance costs - distributions to Unitholders by FFO for the period. - Management uses this key metric in evaluating the sustainability of Crombie's distribution payments to Unitholders.	"Funds from Operations (FFO) ^(*) " starting on page 29
Adjusted funds from operations ("AFFO")	- Crombie considers AFFO to be a useful measure in evaluating the recurring economic performance of its operating results which will be used to support future distribution payments. - Crombie follows the recommendations of REALPAC's January 2022 guidance in calculating AFFO. - AFFO reflects earnings after the adjustments in arriving at FFO (excluding internal leasing costs) and the provision for non-cash straight-line rent included in revenue, maintenance capital expenditures, and maintenance tenant incentives and leasing costs. - Crombie calculates AFFO per Unit using the basic weighted average Units outstanding for the period. Management believes this is a useful measure in comparing period-over-period operating results.	"Adjusted Funds from Operations (AFFO) ^(*) " starting on page 30

Adjusted debt	- Represents debt excluding transaction costs, which Crombie feels is a more relevant presentation of indebtedness. It includes Crombie's share of debt held in equity-accounted joint ventures. - Adjusted debt is used in the calculation of Crombie's debt to gross fair value and debt to trailing 12 months adjusted EBITDA. - Crombie uses this metric as an input in debt covenant calculations.	"Debt Metrics" starting on page 45
Earnings before interest, taxes, depreciation and amortization ("adjusted EBITDA")	- Represents earnings before interest, taxes, depreciation, and amortization adjusted for certain items such as amortization of tenant incentives, impairment of investment properties, gain (loss) on disposal of investment properties, and gain on distribution from equity-accounted investments. It includes Crombie's share of revenue, operating expenses, and general and administrative expenses from equity-accounted joint ventures. - Adjusted EBITDA is used as an input in several of Crombie's debt metrics, providing information with respect to certain financial ratios that are used in measuring Crombie's debt profile and assessing its ability to satisfy obligations, including servicing its debt. - Crombie believes adjusted EBITDA is an indicative measure of its ability to service debt requirements, fund capital projects, and acquire properties.	"Debt Metrics" starting on page 45
Debt to adjusted EBITDA	Used to assess Crombie's financial leverage, to measure its ability to meet financial obligations and measure its balance sheet strength.	"Debt Metrics" starting on page 45

Maintenance Capital Expenditures, Maintenance Tenant Incentives and Leasing Costs ("Maintenance Expenditures")

Maintenance expenditures represent costs incurred in sustaining and maintaining existing space and exclude expenditures that are revenue-enhancing. Crombie considers revenue-enhancing expenditures to be costs that expand the GLA of a property or otherwise enhance the property's overall value.

Crombie's policy is to charge AFFO^(*) with a reserve amount for maintenance expenditures based on a normalized rate per square foot applied to the weighted average GLA, as these expenditures are not generally incurred on a consistent basis during the year, or from year to year. Crombie excludes newly constructed and developed properties from its maintenance charge for the first year until a baseline of actual expenditures is obtained as little to no maintenance expense is incurred in the first year of operation. Crombie also discloses actual maintenance expenditures for comparative purposes. The rate per square foot is a proxy for actual historical costs, anticipated future costs, and any significant changes in the nature and age of the properties in the portfolio as it evolves over time. For 2024, Crombie has increased the normalized rate from \$1.10 to \$1.15 per square foot of weighted average GLA, based on the actual spend for the previous three years and estimated spend for 2024. Additionally, Crombie combines maintenance capital expenditures with maintenance tenant incentive ("TI") and deferred leasing costs in arriving at the normalized per square foot charge to AFFO^(*), based on the fact that in years where TI and leasing expenditures are reduced, spending on maintenance capital expenditures may be accelerated and vice versa.

An obligation for TI expenditure occurs when renewing existing tenant leases or a new tenant occupies a space. Typically, leasing costs for existing tenants are lower on a per square foot basis than for new tenants; however, new tenants may provide more overall cash flow to Crombie through higher rents or improved traffic to a property. The timing of such expenditures fluctuates depending on the satisfaction of contractual terms contained in the leases.

Maintenance TI and deferred leasing costs are the result of both lease renewals and new leases, and are reflective of the leasing activity during 2024, 2023, and 2022. In the third quarter of 2023, maintenance TI and deferred leasing costs included \$16,361 paid to a subsidiary of Empire in connection with the assignment of 24 subleases to Crombie for retail sites in Western Canada.

Revenue-enhancing expenditures are capitalized and depreciated or charged against revenue over their useful lives. Revenue-enhancing expenditures during the nine months ended September 30, 2024 consisted primarily of development work and modernization investments.

12. FORWARD-LOOKING INFORMATION

This MD&A contains forward-looking statements about expected future events and the financial and operating performance of Crombie. These statements, and the related estimates and assumptions used by management, can be found in several sections of the MD&A, including, but not limited to, “Portfolio Review - Strategic Acquisitions”, “Portfolio Review - Strategic Dispositions”, “Development”, “Capital Management”, “Joint Ventures”, and “Other Disclosures”. Forward-looking statements include, but are not limited to, statements concerning management’s beliefs, plans, estimates, intentions, and similar statements concerning anticipated future events, results, circumstances, performance, or expectations that are not historical fact. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “may”, “will”, “estimate”, “anticipate”, “believe”, “expect”, “intend”, or similar expressions suggesting future outcomes or events. Such forward-looking statements reflect management’s current beliefs and are based on information currently available to management. All forward-looking information in this MD&A is qualified by the cautionary statements under “Risk Factors Related to the Business of Crombie”, as well as the additional statements in the “Risks” section of Crombie’s 2023 Annual Information Form available at www.crombie.ca. Forward-looking statements in this MD&A and the principal related risks include statements regarding:

- (i) opportunities with Empire for investments in the modernization, acquisition, expansion, and conversion of their grocery stores, customer fulfillment centres, or warehouses, which may be impacted by the development of Empire’s business and the resulting availability of suitable investment opportunities for Crombie;
- (ii) AFFO^(*) accretion and NAV^(*) growth from strategic acquisitions, which may be affected by future occupancy and rental performance, and/or redevelopment activity of acquired properties;
- (iii) disposition of properties and the anticipated reinvestment of net proceeds, which could be impacted by the availability of purchasers, the availability of accretive property acquisitions, the timing of property development activities or other accretive uses for net proceeds and real estate market conditions;
- (iv) anticipated growth in Crombie’s total portfolio, which depends on successful execution of its current development strategy, its relationship with Empire, availability of suitable properties and development opportunities, and general economic conditions;
- (v) statements under the heading “Development”, including the locations identified, timing, cost, estimated yield on cost, development size and nature, anticipated impact on portfolio quality and diversification, cash flow growth, Unitholder value, or other financial measures, all of which may be impacted by real estate market cycles, future capitalization rates, the availability of financing opportunities, the availability of labour, actual development costs, ability to achieve lease-up stabilization at current market rents, general economic conditions, and factors described under the “Development” section, and which assume obtaining required municipal zoning and development approvals, successful agreements with existing tenants, and, where applicable, successful execution of development activities undertaken by related parties not under the direct control of Crombie;
- (vi) fair value of investment properties, which is based on trailing net property income, capitalization rates, estimates of future cash flows, and anticipated trends and economic conditions;
- (vii) overall indebtedness levels and terms, and expectations relating to refinancing, which could be impacted by the level of acquisition and disposition activity that Crombie is able to achieve, levels of indebtedness, Crombie’s ability to maintain and strengthen its investment grade credit rating, future financing opportunities, future interest rates, creditworthiness of major tenants and joint arrangement partners, and market conditions;
- (viii) estimated GLA, estimated completion dates, estimated yield on cost, and estimated total costs for projects in Crombie’s development pipeline, which are subject to changes in site plans, cost tendering processes, and continuing tenant negotiations, as well as access to job sites, supply and labour availability, ability to attract tenants, tenant mix, building sizes, estimated future rents, and availability and cost of construction financing;
- (ix) asset growth and reinvesting to develop or otherwise make improvements to existing properties, which could be impacted by the availability of labour, capital resource availability and allocation decisions, as well as actual development costs;
- (x) generating improved rental income and occupancy levels, including anticipated replacement of expiring tenancies, which could be impacted by changes in demand for Crombie’s properties, tenant bankruptcies, the effects of general economic conditions, e-commerce, and supply of competitive locations in proximity to Crombie locations;
- (xi) estimated payments on derivative and non-derivative financial liabilities, which could be impacted by interest rates on floating rate debt and fluctuations in the settlement value and settlement timing of any derivative financial liabilities;
- (xii) investment in joint ventures and the income contributed by those investments, which could be impacted by the risk and uncertainty from dependence on partners that are not under Crombie’s control, including risk of default by a partner on financing obligations or non-performance of a partner’s obligations on a project, which may include development, construction, management, or leasing;
- (xiii) tax exempt status, which can be impacted by regulatory changes enacted by governmental authorities;
- (xiv) anticipated distributions and payout ratios, which could be impacted by results of operations and capital resource allocation decisions; and
- (xv) the effect that any contingencies or guarantees would have on Crombie’s financial statements, which could be impacted by their eventual outcome.

1) GENERAL INFORMATION AND NATURE OF OPERATIONS

Crombie Real Estate Investment Trust ("Crombie") is an unincorporated "open-ended" real estate investment trust created pursuant to the Declaration of Trust dated January 1, 2006, as amended. The principal business of Crombie is investing in income-producing retail, retail-related industrial, mixed-use, and office properties in Canada. Crombie is registered in Canada and the address of its registered office is 610 East River Road, Suite 200, New Glasgow, Nova Scotia, Canada, B2H 3S2. The interim condensed consolidated financial statements for the three and nine months ended September 30, 2024 and September 30, 2023 include the accounts of Crombie and all of its subsidiary entities. The Units of Crombie are traded on the Toronto Stock Exchange ("TSX") under the symbol "CRR.UN".

The three and nine months ended September 30, 2024 interim condensed consolidated financial statements were authorized for issue by the Board of Trustees on November 6, 2024.

2) SUMMARY OF MATERIAL ACCOUNTING POLICIES

Except as otherwise indicated hereunder, these financial statements have been prepared using the same policies and methods of computation as the audited consolidated financial statements for the year ended December 31, 2023.

(a) Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard IAS 34, "Interim Financial Reporting", and do not contain all the information required by IAS 1 "Presentation of Financial Statements". Therefore, they should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2023.

(b) Basis of presentation

These interim condensed consolidated financial statements are presented in Canadian dollars ("CAD"), Crombie's functional and reporting currency, rounded to the nearest thousand. The interim condensed consolidated financial statements are prepared on a historical cost basis except for any financial assets and liabilities classified at fair value, with changes in fair value either recognized as an increase (decrease) in net assets attributable to Unitholders ("FVTPL" classification) or fair value through other comprehensive income (loss) ("FVOCI" classification).

(c) Critical accounting estimates and assumptions

The preparation of the interim condensed consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the interim condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions that are critical to the determination of the amounts reported in the interim condensed consolidated financial statements relate to the following:

(i) Fair value measurement

A number of assets and liabilities included in Crombie's interim condensed consolidated financial statements require measurement at, and/or disclosure of, fair value. In estimating the fair value of an asset or a liability, Crombie uses market-observable data to the extent it is available. Where market-observable data is not available, Crombie estimates the fair value based on discounted future cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks.

(ii) Investment properties

Investment properties are carried at cost less accumulated depreciation. Crombie estimates the residual value and useful lives of investment properties and the significant components thereof to calculate depreciation and amortization.

(iii) Investment property valuation

External, independent valuation companies, having appropriate, recognized professional qualifications and recent experience in the location and category of properties being valued, value substantially all of Crombie's investment property portfolio on a rotating basis over a maximum period of four years. The fair values, based on the measurement date, represent the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Internal quarterly valuations are performed using internally generated valuation models prepared considering the aggregate trailing annual net operating income (property revenue less property operating expenses) recognized from leasing the property, that is stabilized for any major tenant movement. Biannual capitalization rates are obtained from an independent valuation company, which reflect the specific risks inherent in the net operating income, to arrive at property valuations. As at September 30, 2024, management's determination of fair value was updated for current market assumptions, including net operating income, market capitalization rates, and recent appraisals provided by independent appraisal professionals.

(d) Changes in accounting standards

Effective January 1, 2024, Crombie has applied the amendments of IAS 1 "Presentation of Financial Statements" ("IAS 1"). The amendments clarify how to classify liabilities as current or non-current. The change was applied retrospectively on the effective date and there was no material impact as a result of this amendment.

(e) Future changes in accounting standards

The International Accounting Standards Board ("IASB") has issued a new standard, IFRS 18 "Presentation and Disclosure in Financial Statements". This standard will replace IAS 1 and provide a defined structure for the statement of profit or loss, require enhanced disclosures for certain profit or loss performance measures that are reported outside an entity's financial statements and clarification on aggregation and disaggregation. The new standard will apply to reporting periods beginning on or after January 1, 2027 and will apply to comparative information. Management is currently evaluating the impact of this future policy on the consolidated financial statements.

(1) For the nine months ended September 30, 2024, Crombie transferred \$3,814 in predevelopment costs to investment properties. These costs were previously presented as prepaid expenses and deposits within other assets (Note 5).

Included in land are right-of-use assets of \$16,519 net of accumulated depreciation of \$1,820 for land held under lease.

In the second quarter of 2024, Crombie recorded an impairment totalling \$2,000 on a retail property. This impairment was the result of vacancy at the property. Impairment is measured on a per property basis and is determined as the amount by which the carrying value, using the cost method, exceeds the recoverable amount for each property. The recoverable amount is determined to be the higher value of the economic benefit of the continued use of the asset or the selling price less costs to sell. The recoverable amount was determined to be the economic benefit of the continued use of the asset. To calculate the benefit of the continued use of the asset, Crombie utilizes the present value of the estimated future cash flows, discounted using a discount rate based on the risk associated with the property.

Balance, September 30, 2024	\$ 93,566	\$ 62,253	\$ 155,819

(1) For the nine months ended September 30, 2024, Crombie transferred \$45,786 in predevelopment costs to properties under development. These costs were previously presented as prepaid expenses and deposits within other assets (Note 5).

Fair Value

The fair of investment properties is a Level 3 fair value measurement. The fair value represents the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Crombie's total fair value of investment properties exceeds carrying value by \$1,230,191 at September 30, 2024 (December 31, 2023 - \$1,109,289). Crombie uses the cost method of accounting for investment properties and increases in fair value over carrying value are not recognized until realized through disposition or derecognition of properties, while impairment, if any, is recognized on a property-by-property basis when circumstances indicate that the carrying value may not be recoverable.

The estimated fair values of Crombie's investment properties are as follows:

	Fair Value	Carrying Value
September 30, 2024	\$ 5,272,000	\$ 4,041,809
December 31, 2023	5,096,000	3,986,711

Carrying value consists of the net carrying value of:

	Note	September 30, 2024	December 31, 2023
Income properties	3	\$ 3,498,418	3,529,969
Properties under development	3	155,819	94,488

Investment properties held for sale	6	5,638	—
Total carrying value		\$ 4,041,809	3,986,711

Crombie has utilized the following weighted average capitalization rate for the valuation of income properties. Crombie reports the weighted average capitalization rate excluding properties under development. Once development is completed on these properties and they become income producing, Crombie includes them in the calculation of its weighted average capitalization rate.

	September 30, 2024	December 31, 2023
Weighted average capitalization rate	6.12 %	6.12 %

Fair value sensitivity

Crombie has determined that a change in this applied capitalization rate and net operating income at September 30, 2024 would result in an (increase) decrease in the fair value of the investment properties as follows:

Fair Value

The estimated fair value of the investment properties held within Crombie's equity-accounted joint ventures at 100% is as follows:

	Fair Value		Carrying Value	
September 30, 2024	\$	856,000	\$	552,605
December 31, 2023	\$	945,000	\$	566,563

Carrying value consists of the net carrying value at 100% of:

	September 30, 2024		December 31, 2023	
Income properties	\$	509,754	\$	528,754
Properties under development		37,971		32,537
Accrued straight-line rent receivable		570		862
Tenant incentives		4,310		4,410
Total carrying value	\$	552,605	\$	566,563

The fair value of joint venture properties is a Level 3 fair value measurement. The fair value represents the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value included in this summary reflects the fair value of the properties as at September 30, 2024 and December 31, 2023, respectively, based on each property's current use as a revenue-generating property or property under development. Additionally, as properties are prepared for redevelopment, Crombie considers each property's progress through entitlement in determining the fair value of the property. The fair value of properties under development is assumed to equal cost until the property is substantially completed. As at September 30, 2024, 1600 Davie Limited Partnership, Bronte Village Limited Partnership, The Duke Limited Partnership, and 140 CPN Limited are revenue-generating properties.

Crombie has utilized the following weighted average capitalization rates for its joint venture properties:

	September 30, 2024	December 31, 2023
Weighted average capitalization rate	3.85 %	3.67 %

Fair value sensitivity of the investment properties held within Crombie's equity-accounted joint ventures

Crombie has determined that a change in this applied capitalization rate and net operating income at September 30, 2024 would result in an (increase) decrease in the fair value of the investment properties as follows:

Capitalization	Net operating income change

(1) Prior to disposition Crombie was reimbursed \$407 in development costs incurred by the co-owner.

Crombie has determined that two of its investment properties met the criteria for classification as held for sale as at September 30, 2024 based on the status of the sales process. Prior to the classification as held for sale, the properties were assessed for impairment, which, at that time, is the amount by which the carrying amount exceeded its recoverable amount, if any. No impairments were booked on this reclassification, and no depreciation or amortization will be recorded while the properties are classified as held for sale. Crombie completed both sales on October 8, 2024 for combined gross proceeds of \$6,000 before closing adjustments and transition costs (Note 23(a)).

In the second quarter of 2024, in anticipation of the cessation of the publication of Canadian Dollar Offered Rate ("CDOR"), all credit facilities were amended such that borrowings under all credit facilities are possible by way of prime rate advance or Canadian Overnight Repo Rate Average ("CORRA"). The respective spread or margin may change depending on Crombie's unsecured bond rating with Morningstar DBRS.

Unsecured non-revolving credit facility

The unsecured non-revolving credit facility was amended in the first quarter of 2024. The amendment reinstated the maximum principal amount of \$200,000 and matures November 18, 2025. The facility is intended to be used for mortgage repayments. Borrowings under the unsecured non-revolving credit facility can be by way of prime rate advance or CORRA, and the floating interest rate is contingent on the type of advance plus the applicable spread or margin.

Unsecured bilateral credit facility

The unsecured bilateral credit facility agreement was extended in the second quarter of 2024. The unsecured bilateral credit facility has a maximum principal amount of \$130,000 and matures June 30, 2026. The facility is used by Crombie for working capital purposes and to provide temporary financing for acquisitions and development activity. Borrowings under the unsecured bilateral credit facility can be by way of prime rate advance or CORRA and the floating interest rate is contingent on the type of advance, plus the applicable spread or margin. The respective spread or margin may change depending on Crombie's unsecured bond rating with Morningstar DBRS.

Construction financing facility

In the third quarter of 2024, Crombie secured a construction financing facility with an initial maturity date of December 1, 2025 on a residential property currently under development. The construction facility carries a floating rate which varies with the lender's cost of funds and has a maximum principal amount of \$105,876, limited by the development spending to date. Upon completion of the development, Crombie has the ability to convert the facility to a fixed rate with an initial term of 10 years.

18) RELATED PARTY TRANSACTIONS

As at September 30, 2024, Empire, through its wholly owned subsidiary ECL Developments Limited ("ECLD"), holds a 41.5% indirect interest in Crombie. Related party transactions primarily include transactions with entities associated with Crombie through Empire's indirect interest. Related party transactions also include transactions with joint venture entities in which Crombie has a 50% interest, as well as transactions with key management personnel and post-employment benefit plans.

Related party transactions are measured at the amount of consideration established and agreed by the related parties.

(1) Property revenue for the three and nine months ended September 30, 2023 has been increased by \$4,830 and \$14,490, respectively, as a result of a change in the presentation of recoverable property taxes for certain properties where a tenant pays the property taxes on Crombie's behalf.

Crombie provides property management, development management, project management, leasing services, and environmental management to co-owners and to specific properties owned by certain subsidiaries of Empire on a fee-for-service basis pursuant to a Property Management Agreement which is being recognized as revenue from management and development services.

During the nine months ended September 30, 2024, Crombie issued 921,637 (September 30, 2023 - 820,806) Class B LP Units to ECLD under the DRIP (Note 16).

During the nine months ended September 30, 2024, Crombie invested \$33,903 (September 30, 2023 - \$16,977) in properties anchored by subsidiaries of Empire, which resulted in amended lease terms. These amounts have been included in tenant incentive additions and the costs are being amortized over the amended lease terms.

Crombie has a mortgage payable due to 1600 Davie Limited Partnership of \$24,622 (December 31, 2023 - \$24,876) that has interest at 3.22% and matures December 1, 2027. This mortgage relates to the commercial component of the Davie Street development, 100% of which is included in Crombie's financial statements.

During the nine months ended September 30, 2024, Crombie acquired one retail property from a subsidiary of Empire for a total purchase price of \$3,760 before closing and transaction costs.

19) FINANCIAL INSTRUMENTS

(a) Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that Crombie would receive to sell a financial asset or pay to transfer a financial liability in an orderly transaction between market participants at the measurement date.

Fair value determination is classified within a three-level hierarchy, based on observability of significant inputs, as follows:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 - unobservable inputs for the asset or liability.

There were no transfers between levels of the fair value hierarchy during the period ended September 30, 2024.

September 30, 2024

The fair value of other financial instruments is based on discounted cash flows using discount rates that reflect current market conditions for instruments with similar terms and risks. The following table summarizes the estimated fair value of other financial instruments that have a fair value different from their carrying value:

	September 30, 2024		December 31, 2023	
	Fair Value	Carrying Value	Fair Value	Carrying Value ⁽¹⁾
Financial liabilities				
Investment property debt	\$ 817,321	\$ 816,042	\$ 956,601	\$ 979,019
Senior unsecured notes	1,364,570	1,371,463	1,108,474	1,171,769
Total financial liabilities	\$ 2,181,891	\$ 2,187,505	\$ 2,065,075	\$ 2,150,788

(1) Carrying values for December 31, 2023 were updated to included deferred financing costs.

The fair values of investment property debt and senior unsecured notes are Level 2.

Due to their short-term nature, the carrying value of the following financial instruments approximates their fair value at the balance sheet date:

- Accounts receivables
- Trade and other payables.

(b) Risk management

In the normal course of business, Crombie is exposed to a number of financial risks that can affect its operating performance. The significant risks, and the actions taken to manage them, are as follows:

Credit risk

Credit risk arises from the possibility that tenants may experience financial difficulty and be unable to fulfill their lease commitments. A provision for doubtful accounts and other adjustments are taken for all anticipated collectability risks.

Crombie mitigates credit risk by geographical diversification, diversifying both its tenant mix and asset mix, and conducting credit assessments for new and renewing tenants.

Receivables are substantially comprised of current balances due from tenants and past due receivables. The balance of accounts receivable past due is usually not significant. Generally, rents are due the first of each month and other tenant billings are due 30 days after invoicing, and balances over 30 days are considered past due. The total provision for doubtful accounts is reviewed at each balance sheet date and current and long-term accounts receivable are reviewed on a regular basis.

Crombie assesses, on a forward-looking basis, the expected credit losses associated with its rent receivables. In determining the expected credit losses, Crombie takes into account, on a tenant-by-tenant basis, the payment history, future expectations, and knowledge gathered through discussions for rental concessions and ongoing discussions with tenants.

Interest rate risk

Interest rate risk is the potential for financial loss arising from increasing interest rates. Crombie mitigates this risk by utilizing staggered debt maturities and limiting the use of permanent floating rate debt and, on occasion, utilizing interest rate swap agreements. Crombie does not enter into interest rate swaps on a speculative basis.

Liquidity risk

The real estate industry is capital intensive, and most assets are non-current in nature. These assets produce income through long-term leases, which funds current liabilities as they come due. While rents are contractually committed, they are not recognized as current assets, and this imbalance creates a working capital deficit, despite cash flows from contractually committed rents and credit facilities being more than adequate to satisfy current liabilities. Liquidity risk is the risk that Crombie may not have access to sufficient debt and equity capital to fund its growth program, refinance debt obligations as they mature, or meet its ongoing obligations as they arise. Cash flow generated from operating the property portfolio represents the primary source of liquidity used to service the interest on debt, fund general and administrative expenses, reinvest in the portfolio through capital expenditures, as well as fund tenant incentive costs and make distributions to Unitholders. Debt repayment requirements are primarily funded from refinancing Crombie's maturing debt obligations. Property acquisition funding requirements are funded through a combination of accessing the debt and equity capital markets and recycling capital from property dispositions.

There is a risk that the debt capital markets may not refinance maturing fixed rate and floating rate debt on terms and conditions acceptable to Crombie or at any terms at all. Crombie seeks to mitigate this risk by staggering its debt maturity dates. There is also a risk that the equity capital markets may not be receptive to a REIT Unit offering issuance from Crombie with financial terms acceptable to Crombie. Access to the \$400,000 revolving credit facility is limited by the amount utilized under the facility and the amount of any outstanding letters of credit, and it cannot exceed the borrowing base security provided by Crombie. As at September 30, 2024, \$390,149 was available on this facility.

The estimated payments, including principal and interest, on financial liabilities to maturity date are as follows:

20) CAPITAL MANAGEMENT

Crombie's objective when managing capital on a long-term basis is to maintain overall indebtedness, at reasonable levels, utilize staggered debt maturities, minimize long-term exposure to excessive levels of floating rate debt and maintain conservative payout ratios.

Crombie's capital structure consists of the following:

	September 30, 2024		December 31, 2023
Fixed rate mortgages ⁽¹⁾	\$ 764,182	\$	834,628
Drawn credit facilities ⁽¹⁾	51,860		144,391
Senior unsecured notes ⁽¹⁾	1,371,463		1,171,769
Crombie REIT Unitholders	1,072,204		1,081,631
SVU and Class B LP Unitholders ⁽²⁾	736,788		743,082
Lease liabilities	35,651		36,292
	\$ 4,032,148	\$	4,011,793

(1) Net of deferred financing charges.

(2) Crombie REIT Special Voting Units ("SVU") and Class B LP Units.

At a minimum, Crombie's capital structure is managed to ensure that it complies with the limitations pursuant to Crombie's Declaration of Trust, the criteria contained in the Income Tax Act (Canada) in regard to the definition of a REIT, and existing debt covenants. One of the restrictions pursuant to Crombie's Declaration of Trust would include, among other items, a restriction that Crombie shall not incur total indebtedness of more than 60% of gross book value.

For the debt to gross book value calculation, Crombie does not include in total debt the financial liabilities to REIT Unitholders and to holders of Class B LP Units, as shown on the balance sheets as net assets attributable to Unitholders. Crombie's debt to gross book value is defined as the total obligation for borrowed funds and lease liabilities, including the proportionate share of any borrowings held within joint ventures, divided by the gross book value of Crombie's assets which includes its proportionate share of gross assets held within joint ventures.

Under the amended terms governing the revolving credit facility, Crombie is entitled to borrow a maximum of 70% of the fair market value of assets, subject to a first security position, and 60% of the excess fair market value over first mortgage financing of assets subject to a second security position or a negative pledge. The terms of the revolving credit facility also require that Crombie must maintain certain covenants:

- annualized net operating income for the prescribed properties must be a minimum of 1.3 times the coverage of the related annualized debt service requirements;
- annualized net operating income on all properties must be a minimum of 1.4 times the coverage of all annualized debt service requirements;
- access to the revolving credit facility is limited by the amount utilized under the facility and the amount of any outstanding letters of credit not to exceed the borrowing base security provided by Crombie; and
- annual cash distributions to Unitholders are limited to 100% of funds from operations.

As at September 30, 2024, Crombie is in compliance with all externally imposed capital requirements and all covenants relating to its debt facilities.

Notes to the Interim Condensed Consolidated Financial Statements
(In thousands of Canadian dollars)
September 30, 2024

21) LEASE LIABILITIES

Crombie's future minimum lease payments as a lessee are as follows:

	Twelve months ending September 30,						Thereafter
	Total	2025	2026	2027	2028	2029	
Future minimum lease payments	\$ 149,074	\$ 4,741	\$ 2,958	\$ 2,807	\$ 2,524	\$ 2,399	\$ 133,645
Finance charges	(113,423)	(2,100)	(2,041)	(2,008)	(1,985)	(1,972)	(103,317)
Present value of lease payments	\$ 35,651	\$ 2,641	\$ 917	\$ 799	\$ 539	\$ 427	\$ 30,328

Lease liabilities are presented on the interim condensed consolidated balance sheets as follows:

	September 30, 2024	December 31, 2023
Non-current	\$ 33,010	\$ 35,351
Current	2,641	941
Total lease liabilities	\$ 35,651	\$ 36,292

Some of Crombie's lease agreements contain contingent rent clauses. Contingent rental payments are recognized in the consolidated statements of comprehensive loss as required when contingent criteria are met. The lease agreements contain renewal options and purchase options, none of which are reflected in the minimum lease payments in the above table. For the nine months ended September 30, 2024, minimum lease payments of \$2,360 were paid by Crombie.

22) COMMITMENTS, CONTINGENCIES, AND GUARANTEES

There are various claims and litigation in which Crombie is involved, arising out of the ordinary course of business operations. In the opinion of management, any liability that would arise from such contingencies in excess of existing accruals would not have a significant adverse effect on these financial statements.

Crombie obtains standby letters of credit to support its obligations with respect to construction work on its investment properties and satisfying mortgage financing requirements. As at September 30, 2024, Crombie has \$5,208 (December 31, 2023 - \$5,342) in outstanding letters of credit related to construction work being performed on investment properties.

As at September 30, 2024, Crombie had signed construction contracts totalling \$268,603, of which \$196,537 has been paid.

Crombie has committed to funding \$37,926 in development costs at 1700 East Broadway Limited Partnership, of which \$719 has been funded as at September 30, 2024.

Crombie has 100% guarantees on mortgages related to properties in which it has less than a 100% interest. The mortgages payable related to these guarantees are secured by specific charges against the properties. As at September 30, 2024, Crombie has provided guarantees of approximately \$38,421 (December 31, 2023 - \$81,781) on mortgages in excess of their ownership interest in the properties. Responsibility for ongoing payments of principal and interest on these mortgages remains with the joint owners of the properties. The mortgages have a weighted average term to maturity of 2.6 years.

Crombie and its partners have provided joint and several guarantees on 100% of debt outstanding in the following joint ventures: Bronte Village Limited Partnership \$242,498 (December 31, 2023 - \$223,000), 1600 Davie Limited Partnership \$178,143 (December 31, 2023 - \$184,015), 1700 East Broadway Limited Partnership \$19,400 (December 31, 2023 - \$17,400), and 140 CPN Limited \$3,147 (December 31, 2023 - \$3,200). Each mortgage-related debt supported by a joint and several guarantee is secured by the income-producing property related to the mortgage.

Under the terms of head leases with certain of Crombie's joint operation partners, Crombie guarantees its joint operation partners their portion of any uncollected rent receivable from the sub-tenant.

23) SUBSEQUENT EVENTS

- (a) On October 8, 2024, Crombie disposed of a 100% interest in two retail properties to a third party totalling 338,000 square feet. Total proceeds, before closing and transaction costs, were \$6,000, half of which will be in the form of interest free vendor take-back financing for three years. As part of this transaction, Crombie will retain the grocery component at one location through a long term land lease.
- (b) On October 11, 2024, Crombie issued, on a private placement basis, \$300,000 of Series M notes (senior unsecured) maturing January 15, 2032. The net proceeds were used to repay, redeem, or refinance existing indebtedness, including maturing mortgage financing, indebtedness under existing bank credit facilities, and outstanding debt securities, as well as general trust purposes. The notes were priced with a contractual interest rate of 4.732%. Interest is payable in equal semi-annual installments on January 15 and July 15.
- (c) On October 15, 2024, Crombie acquired its partners' interest in the Davie Limited Partnership joint venture and obtained control of the property. As a result, Crombie derecognized its share of the Davie Limited Partnership joint venture and recognized the property as an asset acquisition, which resulted in a gain of approximately \$52,000 following the remeasurement of its previously held interest in Davie Limited Partnership joint venture. Consideration paid for the property included \$44,000 in cash, financed through a new unsecured credit facility, and the assumption of \$89,071 of debt, net of a \$24,622 mortgage payable to the joint venture for the commercial component of the Davie Street development, 100% of which is already recognized in Crombie's financial statements.
- (d) On October 16, 2024, Crombie declared distributions of 7.417 cents per Unit for the period from October 1, 2024 up to and including October 31, 2024. The distributions will be paid on November 15, 2024, to Unitholders of record as at October 31, 2024.
- (e) On October 24, 2024, Crombie acquired a land parcel at an existing property for \$2,000, excluding closing and transaction costs.
- (f) On October 31, 2024, Crombie redeemed \$175,000 principal amount of its 4.80% Series E senior unsecured notes which were originally scheduled to mature on January 31, 2025.

24) SEGMENT DISCLOSURE

Crombie owns and operates primarily retail, retail-related industrial, office, and mixed-use real estate assets located in Canada. Management, in measuring Crombie's performance or making operating decisions, does not distinguish or group its operations on a geographical or other basis. Accordingly, Crombie has a single reportable segment.
